TO THE PUBLIC.

In the preparation of the "Traveller's and Tourist's Guide," neither pains nor expense have been spared to make it a work of the highest usefulness; and, it is believed that; upon careful examination, it will commend itself to an enlightened public. In the arrangement of the Routes, an entirely new plan has been adopted, which, it is confidently believed, will be found far more convenient than the old method. The Routes are here given as they diverge from the principal cities and towns in the Union; thus, for example: "Routes from New York," "Routes from Philadelphia," &c. It will be seen that Explanatory Notes are attached to many of the Routes, which the traveller should by no means overlook; as, by attending to these, and consulting the Map attached to the work, he will frequently be saved both expense and inconvenience.

One new feature in our book, particularly, we must call attention to: instead of giving a repetition of each route, we have used the same both for going and returning, by the introduction of an extra column of figures, with the necessary directions, at the head and foot of each Route. This will be found an important *invention*, as it not only furnishes greater convenience, but enables the traveller to see at a glance the distance of places from each starting-point; and, by saving much room, permits us to extend our information very materially. The names of the more prominent places on the routes, are put in a conspicuous type, so that the eye shall detect them without difficulty.

Among the valuable features of the work are Tables, showing at a glance, the Distance, Fare, and Time occupied in travelling from the principal Cities to the most important places in the Union; so that the question frequently asked, without obtaining a satisfactory reply, is here answered in full. Other tables show the distances from New York, &c., to Domestic and Foreign Ports, by Sea; and also, by way of comparison, from New York and Liverpool to the principal ports beyond and around Cape Horn, &c., as well as via the Isthmus of Panama.

It not unfrequently happens that strangers in a large city, from which numerous railroads proceed, are at a loss to know which route to take in order to reach a certain point. To obviate this difficulty, we have given, at the commencement of routes from the chief cities, the names and depots of the principal railroads diverging therefrom, with the most important towns to which they lead. Immediately following, we have placed the law regulating the HACKNEY COACH and CARRIAGE FARES in the great cities, which, we hope, will serve as a safeguard to strangers against the impositions frequently practised upon them by the drivers of those conveyances.

After the Routes from the United States to California, Oregon, &c., will be found descriptions of the places of fashionable and healthful resort, with the Routes leading to them. This is intended especially for Tourists, and those seeking recreation during the summer months, and will be found to assist, perhaps, in determining parties, who have not previously made up their minds, which places to visit.

Under the heading, "GENERAL INFORMATION," is a variety of useful matter, such as sailing of steamships, and other vessels, value of coins, population, &c.

The MAP OF THE UNITED STATES, which accompanies the work, will be found replete with information; and the engraving is particularly clear and distinct, a circumstance that will much enhance its value.

Every attention will be paid to keeping the work up to a standard of usefulness, as we intend giving it a thorough revision, previous to the printing of each and every edition. This is rendered necessary by the continual opening of new routes of travel, old ones being thus displaced. Should any slight inaccuracies in the present volume be detected, the public may rest assured that they will be only temporary; for, as soon as discovered, they shall be rectified.

Travellers will confer a great favour upon the author, by forwarding to him, under cover to the publishers, any information they may obtain from personal observation. Railroad companies also will receive our thanks, and benefit their respective routes, by sending us the latest information relative to their several lines, which shall be early attended to.

THE

TRAVELLER'S AND TOURIST'S GUIDE.

ROUTES FROM BOSTON.

The traveller will refer to each of the following routes respectively, as may be required.

EASTERN RAILROAD, *Depot Commercial Street.*—Leading to Lynn, Salem, Lawrence, Lowell, Gloucester, Newburyport, Portsmouth, Portland, Augusta, Waterville, Bangor, Eastport, New. Brunswick, and Nova Scotia, &c. &c. At Portland it connects with the *Atlantic and St. Lawrence Railroad, Androscoggin and Kennebec*, and *Kennebec and Portland Railroads.* See page 8.

BOSTON AND MAINE RAILROAD, *Depot in Haymarket Square.*—This road connects with the *Portsmouth, Saco, and Portland Railroad*, at South Berwick, in the State of Maine, uniting here with the foregoing route: it, therefore, leads the traveller to the same places, in that State, as the above.

By leaving the above depot persons may also reach the following places:—Haverhill, Exeter, Dover, Great Falls, Lawrence, Manchester, Concord, Lebanon, Montpelier, Burlington, Northern New York, Canadas, Meredith, Plymouth, Haverhill, N. H., &c. See page 9.

LOWELL RAILROAD, *Depot in Lowell Street.*—Leading to Lowell, Nashua, Concord, &c. From Concord, N. H. runs the *Northern Railroad*, connecting with the *Vermont Central, and the Connecticut and Passumpsic Rivers Railroad.* Also, the *Boston, Concord, and Montreal Railroad*, &c. and the *Concord and Portsmouth Railroad.* See page 18.

FITCHBURG RAILROAD, *Depot in Causeway Street.*—Northwestern and Northern Route to Fitchburg, Keene, Bellows Falls, Rutland, Burlington, Canadas, Brattleboro', N. H., &c. See page 16.

WORCESTER AND WESTERN RAILROADS, *Depot corner of Beach and Lincoln Streets.*—To Worcester, Springfield, Pittsfield, Albany, Troy, Saratoga Springs, Utica, Rochester, Buffalo, Niagara Falls, Detroit, Chicago, and the N. W. and S. W. portions of the Union. From Worcester to Norwich and New York city. From Springfield, to Hartford, New Haven, and New York city. Also, to Greenfield, Brattleboro', Bellows Falls, &c. See page 24.

BOSTON AND PROVIDENCE RAILROAD, *Depot Pleasant Street, foot of Boston Common.*—To Providence, Stonington, and New York city. By

the NORFOLK COUNTY RAILROAD, leaving from the same depot. To Dedham, Walpole, Blackstone, &c. By the TAUNTON AND NEW BEDFORD RAILROAD, leaving from the Providence depot. To Mansfield, Taunton and New Bedford. See page 28.

FALL RIVER RAILROAD, *Depot corner of South and Kneeland Streets.*—To Fall River, Newport, and New York city. Also, to Wareham, Sandwich, and Cape Cod. See page 31.

OLD COLONY RAILROAD, *Depot corner of South and Kneeland Streets.*—To Quincy, Abington, Kingston, and Plymouth, Duxbury, &c. Also, by the SOUTH SHORE RAILROAD, from the Old Colony Depot to Hingham, Cohasset, &c. See page 31.

STEAMERS LEAVING BOSTON.—For the *Ocean Steamships*, see Index. A steamboat leaves Central Wharf, Boston, for *Portland*, Me. Fare about $1 00.

From Boston, to *Bath*, *Gardiner*, *and Hallowell.* Fare to Bath $1 00. To the two latter places $1 50 each. A steamer runs from Hallowell to Waterville.

From Boston to *Bangor*, stopping at *Thomaston*, *Camden*, *and Belfast*, &c. Fare to the two former places $2 00; to Belfast $2 50; and to Bangor $3 00.

Passengers by taking the cars of the Eastern Railroad or those of the Boston and Maine Railroad for *Portland*, may leave the latter place by *steamboat* for *Bangor* and intermediate landing, and from Bangor may return direct to Boston.

A steamer runs from Eastern steamboat wharf, Boston, every Monday, at 11 o'clock, for *Eastport*, Me., direct; and every Thursday, at 11 o'clock, for *Eastport*, touching at Portland, Me. From Eastport, another steamer will convey passengers to *St. John*, *N. B.*, and also to *St. Andrews*, *N. B.*, and *Calais*, Me. Fare from Boston to Eastport $5 00. From Boston to St. John $7 00. From Portland to Eastport $4 50, and from Portland to St. John $6 00. These are cabin fares.

Steamboats run from Boston to *Nahant*, and, also, to Hingham, &c.

N. B. For the places of fashionable and healthful resort, see index.

CARRIAGE FARES IN BOSTON

The rates of fare in the City of Boston, to be taken by or paid to the owner or driver of any licensed carriage, are as follows:

For carrying a passenger from one place to another, within the city proper, 25 *cents.*

For children between three and twelve years of age, if more than one, or if accompanied by an adult, *half price* only is charged for each child; and for children under three years of age, when accompanied by their parents, or any adult, no charge is made. Every driver or owner of any licensed carriage, is obliged to carry with each passenger one trunk, and a valise, saddle-bag, carpet-bag, portmanteau, box, bundle, basket, or other article used in travelling, if he be required so to do, without charge or compensation therefor; but for every such trunk or other such article above named more than two, he is entitled to demand and receive the sum of *five cents.*

A TABLE SHOWING THE DISTANCES, FARES, &c. FROM BOSTON TO MANY OF THE MOST IMPORTANT PLACES IN THE UNION.

The following will show at a glance the *distance*, *expense*, and *time* occupied, in travelling from Boston to the most prominent points in the Union. Allowance. however, must be made in the rate of fares when travelling in steamboats, upon Lakes or Rivers, as those modes of conveyance are subject to more or less competition, in which case the fares vary. Those, given, however, are as accurate as can be obtained under the circumstances, and will, no doubt, be found near enough to make up a general estimate of expenses. Similar information will be found at the end of many of the routes, which will be both useful and convenient. The *time* given is that which is actually occupied in passing from one point to another; the detentions between each route are not taken into consideration, as these the traveller must determine for himself. The *distances* are given by the shortest routes.

From Waterville.	WATERVILLE TO PORTLAND. (*Read up.*)	Place to Place.	From Portland.

Fare from Portland, $2 25. *Time*, 4¼ *hours.*

**Stages* leave Waterville for *Bangor*, on the arrival of each train; passengers having through tickets from either Boston or Lawrence, have a check given them in the cars, which on the payment of

$1 50 extra, entitles them to a passage to Bangor in the first conveyance from Waterville, thus making the through fare from Boston to Bangor $4 50.

Through tickets are sold in Boston at the Depots of the Eastern R. R., and the Boston and Maine; and, also, at Lawrence, to the following stations on the road, viz. to *Monmouth*, *Winthrop*, and *Readfield*, at $2 50; to *Belgrade*, at $2 75; to *Waterville*, at $3 00. Passengers going to *Hallowell* and *Augusta*, can purchase a through ticket to *Winthrop* (10 miles) for $2 50, and in the cars before arriving at *Winthrop*, a check will be given them to carry them by *stage* to those towns without additional charge.

At Winthrop *stages* leave for *Dixfield*, and other places in this vicinity, connecting with the morning train.

Stages leave Lewiston, for *Turner's*, *North Livermore*, *Peru*, and *Dixfield*.

Leave Readfield, for *Mt. Vernon*, *Vienna*, *Farmington*, *Phillips*, and *New Portland;* for the above places, stages connect with each train.—On every other day from Tuesday, stages connect at Readfield with morning train only, for *Kent's Hill*, *Fayette*, *Livermore Falls*, *Jay*, *Chesterville*, *East Wilton*, and *Wilton*.

Stages leave Belgrade, for *Chandler's Mills*, *Rome*, *New Sharon*, *Mercer*, *Stark*, *Industry*, *New Vineyard*, and *New Portland*.

Stages leave Waterville, for *Solon Anson*, *Norridgewock*, and *Skowhegan*.

Stages run in connection with the cars from Waterville to *Belfast*, via *Vassalboro'*, and *China*.

Stages leave Bangor, daily, for *Machias* and *Eastport*, connecting with the foregoing route at *Ellsworth*, 27 miles distant from Bangor. From Bangor to Machias, 90 miles; and from Bangor to Eastport, 131 miles. From Machias through *East Machias* and *Lubec* to Eastport, 34 miles.

Steamboats run between Eastport and Boston via Portland, and, also, St. John, N. B. Fare from Eastport to Boston, $5 00. From

Eastport to St. John, $2 50. Passengers for Calais, on arrival of the boat, take the steamer plying between Eastport and Calais.

Ferry-boats ply between Eastport and *Pembroke*, and Lubec, and the islands of Campo Bello, Deer, &c.

FROM EASTPORT TO CALAIS.—To *Perry*, 8; *Robbinston*, 9; *Calais*, 12; total, 29 miles. From Calais to *Baring*, 5 miles.

ROUTES IN NEW BRUNSWICK AND NOVA SCOTIA.

From *St. John, N. B.*, there is a regular line (by steamboat) to *Eastport, Me.*, 60 miles, and from thence to *Portland* and *Boston*. Fare from St. John to Eastport, $2 50. Fare from Eastport to Portland, $4 50, and Boston, $5 00. Through fare from St. John to Portland, $6 00, and from St. John to Boston, $7 00. (Cabin.)

Steamers ply regularly on the St. John River, between the city of St. John and *Frederickton*, the capital of the province, 90 miles, making the intermediate landings. Steamers of a less draught run from Frederickton, up the river to *Woodstock*, 60 miles, and occasionally as far up as *Tobique* and *Grand Falls*, the first 95, and the latter 125 miles, above Frederickton. When the depth of water permits it, a steamer runs from above the Grand Falls, to the *Madawaska Settlement*, about 40 miles distant.

Stages leave Frederickton for *Mogerville, Gagetown, Jemsing*, &c. Also, for *Woodstock*, and *Houlton*, and from thence to *Bangor*, and other places in the State of Maine. A daily line leaves for *Canada*, carrying the mails, passing the *Madawaska Settlements*. *Stage Lines* leave Frederickton for *Liverpool, N. B.*, and also for *Miramichi, Chatham, Newcastle*, and other places on the Miramichi River and Bay.—From these, communication is obtained with *Prince Edward's Island*. Stages run from Frederickton to *St. Andrews, St. Stephens, Calais*, and *Eastport, Me.*, and also to St. John, the principal port of the province.

Stages run between St. John and *Halifax, N. S.*, carrying the mails, round the Bend of Pettecodiac, through *Dorchester, Westmoreland*, and Truro. Also, from St. John to *St. Andrews*, St. Stephens, and *Calais, Me.* A steamer leaves St. John for the principal places in the Bay of Fundy, and Windsor, N. S.

Steamers, also, run from St. John to *Digby* and *Annapolis, N. S.*—*Stages* connect with the steamers for *Windsor*, and from thence to *Halifax*, and from the latter place to all parts of Nova Scotia.

Fare, $3 00. *Time*, 3¾ *hours.*

Through fare, from Boston to Burlington, $5 00. Distance, 249 miles. Time, about 10 hours.

* The *Connecticut and Passumpsic Rivers R. R.* diverges here. See routes from White R. Junc. to Derby Line, page 22.

† From Essex depot diverges the Vermont and Canada R. R., running to St. Albans and Rouse's Pt.; at the latter place connecting with the Ogdensburg R. R.

‡ At Burlington, trains connect daily, each way, with the steamers running on Lake Champlain, to and from St. Johns and Montreal, in Canada, Whitehall, Saratoga Springs, Albany, &c.

New York passengers, at Burlington, can reach the former city, either by the way of Whitehall and Albany, or by taking either of the great routes running through Vermont to the Connecticut River, thence through its valley to Bellows Falls, Brattleboro', Greenfield, Springfield, Hartford, New Haven, and thence to New York.

Or, by continuing the routes in Vermont and New Hampshire.—The *northern* one passes through Concord, Nashua, Worcester, Norwich, and thence to New York.

The *southern* route passes from Bellows Falls through Keene, Fitchburg, Worcester, Norwich, and thence to New York.

Stages run in connection with the Vermont Central R. R. to all parts of Central, Northern, and Western Vermont, and, also, the Canadas.

ROUTES FROM BOSTON TO NEW YORK.

There are *four* principal and direct routes between the above cities, which we shall describe separately. They are the *Fall River;* the *Providence and Stonington;* the *Worcester and Norwich;* and the *Springfield, Hartford, and New Haven* routes. These are night lines, with the exception of the one via *Hartford and New Haven*, which forms an excellent and expeditious day line between the two cities. A day route, is, also, formed by a steam connection between the *Norwich* route and the *Long Island Railroad.*

During the summer season, those travelling for pleasure, and fond of Alpine scenery, could find none more beautiful than may be seen in traversing the rugged hills of Berkshire, or the romantic valley of the Housatonic. This route is from Boston, via the *Worcester and Western Railroads* to *Pittsfield, Mass.*, thence by the branch railroad from the latter place to the *Housatonic Railroad*, which unites with the New York and New Haven Railroad at *Bridgeport, Conn.*, thence to New York city.

Persons taking this route had better rest over night at Pittsfield, Mass., a place where they will find excellent accommodation at reasonable rates. Travellers preferring it, instead of stopping at Pittsfield, may go through to *Hudson*, or to *Albany*, and from either place, may reach New York city, by availing themselves of one of the Hudson River steamboats. Or, by the Hudson River R. R., as far as complete.

HACKNEY COACH FARES IN NEW YORK.

For conveying a passenger any distance not exceeding one mile, 25 cents; two passengers, 50 cents; or, 25 cents each; every additional passenger, 25 cents.

For conveying a passenger any distance exceeding a mile, and within two miles, 50 cents; every additional passenger, 25 cents.

For the use of a hackney coach, carriage, or cab, by the day, with one or more passengers, $5 00.

For the use of a hackney-coach, carriage, or cab, by the hour, with one or more passengers, with the privilege of going from place to place, and of stopping as often as may be required, as follows:—first hour, $1 00; second hour, 75 cents; every succeeding hour, 50 cents.

Children under two years of age, nothing; from two to fourteen, half price.

Each passenger is entitled to take one trunk, valise, box, bag, or other travelling package; and as many more as he pleases, by paying six cents for each extra one, or 12½ cents if over a mile.

If the distance be over one mile, and not over two miles, the charge for one passenger is 50 cents, and each additional one, 25 cents.

If a carriage is taken by the day or hour, it must be so specified.

If a hack is detained or hindered, the driver is entitled to 75 cents for the first hour, and 37½ cents per hour afterwards, in addition to mileage.

Every hack is required to be conspicuously numbered, and to have the rates of fare posted up within it; and in default of either of these, the driver is not to demand or receive any pay.

Cabs.—Calls to and from dwellings, to or from steamboats, or other parts of the city, with one or two persons, 50 cents.

When leaving the stand with one person, any distance not over a mile and a half, 25 cents. When with two persons, 37½ cents. When by the hour, driving in town from place to place, for each hour, 50 cents.

A TABLE SHOWING THE DISTANCE, FARES, &c., FROM N. YORK, TO MANY OF THE MOST IMPORTANT PLACES IN THE UNION.

The following table will show at a glance the *distance*, *expense*, and *time*, occupied, in travelling from New York city, to the most prominent points in the Union. Allowance, however, must be made in the rate of fares, when travelling in steamboats, upon lakes or rivers, as those modes of conveyance are subject to more or less competition, in which case the fares vary. Those given, however, are as accurate as can be obtained under the circumstances, and will, no doubt, be found near enough to make up a general estimate of expenses. The *time* given is that which is actually occupied in passing from one point to another;

the detentions between each route are not taken into consideration, as these the traveller must determine for himself. The *distances* are generally given by the shortest routes.

"These calculations allow for the *detour* made by the British steamers in touching at Halifax, and from these it will be seen that the Boston steamers, supposing them to sail on the Great Circle, (as they usually do,) on the outward passage to Liverpool, have an advantage over a New York steamer, bound to Southampton, of 307 miles, or about one-eighth of the whole distance. A steamer from New York to Liverpool has 72 or 64 miles less to sail, according to the respective modes of sailing, than the Southampton steamer from the same port. *The distance from Boston to Halifax is* 387 *miles.*"

.. .. Cayuga Bridge, 314 miles	6 00	18½

Through tickets are sold, from New York to Ithaca and Cayuga, for $6 00. The latter place is the point of intersection with the Albany and Buffalo route.

Names of Places.	Fare.	Time.
NEW YORK to Elmira	$5 75	14½ hours.
.. .. Jefferson and Seneca Lake, 304 m's		
.. ..*Geneva, 344 miles		

* The Express train leaves New York at 7 A. M., and arrives at Geneva at 10 P. M. Passengers taking this route to Rochester, Buffalo, Niagara, &c., can remain at *Geneva* over night, and take the Express train from Albany next morning, arriving at either of the above places at the same time as passengers via Albany. Through tickets are sold, from N. York to Geneva, for $6 50. To Rochester, 395 miles, for $8 15. To Buffalo, 469 miles, for $10 35. And to Niagara Falls, 471 miles, $11 10.

Names of Places.	Fare.	Time.
NEW YORK to Corning, 300 miles	$6 00	15½ hours.
.. .. Hornellsville, 343 miles	7 00	17
.. .. Olean		
.. .. Dunkirk		

Passengers for Tioga and Lycoming counties, Pa., take the cars of the Corning and Blossburg R. R. at *Corning*.

Stages leave Narrowsburg, Hancock, Deposit, Port Jervis, Great Bend, Binghampton, Owego, Waverly (Factoryville), Elmira, Corning, Hornellsville, and other places on the route, on arrival of trains.

* At Piermont is the commencement of the New York and Erie R. R. The Dearman Ferry connects the route, at this place, with the Hudson River R. R. running along the east bank of the Hudson River.

† From this point diverges the Ramapo and Paterson R.R., uniting at Paterson with the Paterson and Hudson R. R. running to Jersey City. This connection opens to the passenger-travel of the Erie R. R. a more direct, expeditious, and convenient route to and from New York, than that presented by the way of Piermont and the Hudson River; it is about 10 miles nearer.

‡ The NEWBURG BRANCH R. R. diverges here, and runs to *Newburg*. A ferry connects this place with Fishkill Landing, on the opposite bank of the Hudson, uniting there with the Hudson River R. R. It will, also, be the diverging point of

the Hartford, Providence, and Fishkill R. R. On the completion of this road, passengers by the Erie R. R., from the West, may take this route to Boston, and to places in Connecticut and Rhode Island, &c.

§ The CAYUGA AND SUSQUEHANNA R. R. diverges here, and extends to *Ithaca*, 29 miles, at which place it connects, by steamboat, with Cayuga Bridge, where it unites with the Albany and Buffalo route.

‖ The CHEMUNG R. R. diverges here, and runs to Jefferson, at the head of Seneca Lake, 21 miles. Passengers, by taking this route, may reach Geneva, Rochester, Buffalo, Niagara Falls, and the West.

¶ The CORNING AND BLOSSBURG R. R. extends from this place to *Blossburg*, *Pa.*, 40 miles. A railroad is about to be constructed from Corning to Canandaigua; the latter place being on the line of the Albany and Buffalo route.

** The ATTICA AND HORNELLSVILLE R. R. is now being constructed from this place to intersect the Albany and Buffalo road at Attica. When this connection is completed, both the *time* and *distance* between N. York and Buffalo will be much reduced.

†† From Dunkirk a line of railroads is being constructed along the south shore of Lake Erie, to unite with the *Michigan Southern Railroad*, leading to Chicago, and thence to Galena. At Cleveland and Sandusky, the routes leading to Cincinnati and other parts of Ohio, and, also, to Pennsylvania, will be intersected.

By way of comparison and general reference, we give here, the *distances* from New York to Buffalo, by the way of *Albany*, and, also, by the *New York and Erie R. R.*, and its *branches*.

Names of Places.	Miles.
NEW YORK to Buffalo, via Albany	470
.. .. Buffalo, via Ithaca and Cayuga	456
.. .. Buffalo, via Elmira, Seneca Lake and Geneva	471
.. .. Buffalo, via the Attica and Hornellsville route, (now building)	424

The following are the distances from *New York*, to the principal places which will be brought into immediate connection with that city, on the completion of the railroad lines now in progress, uniting with the New York and Erie road at Dunkirk.

Names of Places.	Miles.
NEW YORK to Dunkirk	474
.. .. Erie, Pa.	518
.. .. Cleveland, O.	618
.. .. Sandusky, O.	673
.. .. Toledo, O.	723
.. .. Chicago, Ill.	969
.. .. Galena, Ill.	1,149

Estimated through time, from New York to Galena, on the completion of the above routes, about 60 hours.

From Albany to Canajoharie, passengers may take the Erie Canal, as it passes through the latter place: the distance, however, is 69 miles.

For SHARON SPRINGS, passengers take the above route to Cherry Valley, thence diverging to the eastward, seven miles. These springs are situated near the village, about half a mile north of the turnpike road; they are pure and clear, and, notwithstanding they flow for one-fourth of a mile from their source with other water, preserve their distinctive character. The water falls over a ledge of rocks, having a perpendicular descent of about sixty-five feet. There are two springs: the former being highly impregnated with sulphur, and somewhat resembling the White Sulphur Springs of Virginia. These waters have an exhilarating effect upon the spirits, purify the complexion, and are efficacious in rheumatic and other diseases.

† Passengers taking the route of the Erie R. R. to Buffalo, can, by

this connection, leave New York, crossing to Jersey City, *one hour* after the Erie railroad boat leaves its wharf, and arrive at Suffern's Station in time to take the Erie R. R. cars going west.

Passengers coming east, can leave the Erie train at Suffern's Station, and by taking this route, arrive in New York at least *one hour and a half* sooner than by the Erie railroad, via Piermont.

The cars leave Suffern's immediately on the arrival of the Erie train going east, and always arrive from New York in time to connect with the Erie train going west.

From Detroit to *Chicago*, and intermediate places, see page 68.

From Detroit to *Buffalo*, via Canada, see page 69.

From Detroit to *Lake Superior*, see route from *Buffalo* to the Copper Regions, page 69.

DETROIT TO MILWAUKIE, WIS.—Leave Detroit by the cars of the *Michigan Central R. R.*, for Niles, 191 miles, (see route from Detroit to Chicago,) thence, by *stage*, to *St. Joseph*, 25 miles. A *steamboat* leaves St. Joseph's daily, immediately on the arrival of the stage, for *Kenosha*, *Racine*, and *Milwaukie*.

From DETROIT to UTICA, Mich., 22 miles.

From DETROIT to HOLLAND, Mic.—By the cars of the Michigan Central R. R. to *Kalamazoo*, 146 miles; thence, by stage, to *Holland*, 50 miles. Total distance, 196 miles.

Holland is a Dutch settlement, with upwards of 5000 inhabitants, and which is rapidly increasing by fresh emigration from the mother country. It is situated upon Black Lake, about eighty miles due west from Lansing, on an expansion of Black River, a small stream running into Lake Michigan. A charter has been obtained for a plank road from Kalamazoo to the settlement.

Galena to St. Paul's, see following route.

* AURORA BRANCH R. R. diverges here, and runs to *Aurora*, 13 miles.

† ST. CHARLES BRANCH R. R. leaves the main road here, and strikes off to *St. Charles*, 8 miles.

Stages leave Aurora and St. Charles daily, for Dixon and Ottawa, by the following routes. From AURORA to OTTAWA, as follows: AURORA to Oswego, 7 miles; Bristol, 12; Penfield, 17; Northville, 26; Dayton, 41; OTTAWA, 46.

Ottawa is on the Illinois and Michigan Canal; passengers, therefore, can go by that route to Chicago, or by the Illinois River to Peoria, and thence to St. Louis and other places.

From ST. CHARLES to DIXON, as follows: ST. CHARLES to Acasto, 20 miles; Little Rock, 24; Somonauk, 30; Paw Paw Grove, 46; Lee, 63; DIXON, 78. From Dixon, passengers may continue the route to Galena, 96 miles distant. This is what is termed the lower route between Chicago and Galena; the one before described is the upper route.

From Dixon, also, passengers may reach Rock Island, Ill., by the following route: from DIXON to Sterling, 5 miles; Rock River Rapids, 12; Lyndon, 24; Crandell's Ferry, 34; *Rock Island*, 67.

* Galena is situated on Fever River, 7 miles from the Mississippi River. It is important for passengers taking this route to Minnesota, to so time their starting as to reach Galena on Monday or Thursday mornings, as the mail-boats for St. Paul leave invariably about noon on those days. There are now other boats engaged in the trade, but their time for starting cannot always be relied upon. Of course, as this portion of the country becomes more densely populated, the demand for means of conveyance will be increased. The fare from Galena to St. Paul, in the mail-boats, is $5 00. Meals and berth included.

N. B. There is another railroad route between Philadelphia and Baltimore, by way of *Lancaster*, *Columbia*, and *York*, Pa. This route, although not so direct, will, to the *tourist* whose time is not limited, be found to possess far greater at-

tractions, in the way of fine scenery, than those previously described. The distance is 153 miles. Fare, $5 00.

Another route open to *tourists*, is from Philadelphia, by steamboat, down the Delaware river to Delaware City, 44 miles; thence through the *Chesapeake and Delaware Canal*, 16 miles; thence across Chesapeake Bay to Baltimore, 56 miles. Total, 116 miles. The chief feature of interest on this route, is the formidable excavation on the above canal, termed the "Deep Cut," which extends *six* miles, and is, in its deepest part, 70 feet from the top. A bridge of 235 feet span extends over the chasm, at an elevation of 90 feet above the canal.

† This is a new and convenient route of travel, and but recently established. From Pottsville, by *railroad*, to Tremont, is 17 miles; *stages* leave the latter place on arrival of the morning cars from Pottsville, and arrive at Lewistown (on Penn. Central R. R.) the same evening. Distance, 91 miles.

From the point of intersection on the Penn. Central R. R. passengers may go to Pittsburg; or, to Harrisburg, Lancaster, Philadelphia, &c. From Harrisburg, they may reach York, Pa., and Baltimore, Md., by *railroad.*

ROUTES FROM PHILADELPHIA.

The following are the principal railroad routes diverging from Philadelphia; the traveller will refer to each respectively, as may be required.

PHILADELPHIA AND TRENTON RAILROAD, &c.—*Leave from foot of Walnut Street.*—This route leads the traveller to Bristol, Trenton, Princeton, New Brunswick, Newark, and New York. The *Belvidere and Delaware R. R.* branches off at Trenton, and leads to Easton, Pa., Belvidere, &c. See page 81.

CAMDEN AND AMBOY RAILROAD.—*Leave Philadelphia, by ferry, to Camden.*—It leads to Burlington, Bordentown, Hightstown, South Amboy, and New York. *Trenton Branch Railroad* runs from Bordentown

to Trenton, and the *Mount Holly Branch R. R.* from Burlington to Mount Holly. See page 81.

COLUMBIA AND PENNSYLVANIA CENTRAL RAILROADS.—*Depot Penn Square and Market Street.*—This route leads to West Chester, Lancaster, Columbia, Harrisburg, Millerstown, Lewistown, Huntingdon, Hollidaysburg, Johnstown, Pittsburg, Cleveland, Massillon, Wooster, Columbus, Cincinnati, &c.

At Columbia it unites with the *York and Wrightsville R. R.* running to Baltimore. At Harrisburg, with the *Cumberland Valley R. R.* leading to Carlisle, Carlisle Springs, Chambersburg, Hagerstown, Bedford Springs, &c. See pages 93 and 94.

READING RAILROAD.—*Depot corner Broad and Vine Streets.*—This route leads to Reading, Pottsville, Sunbury, Northumberland, Williamsport, &c. See page 96.

PHILADELPHIA, WILMINGTON, AND BALTIMORE RAILROAD—*Depot Market and Eleventh Streets*—Leads to Wilmington, Havre de Grace, Baltimore, Washington, Fredericksburg, Richmond, Charleston, Savannah, Montgomery, Mobile, and New Orleans. Also, to Frederick, Harper's Ferry, Cumberland, and the West. See page 82.

NORRISTOWN RAILROAD—*Depot Ninth and Green Streets*—Runs to Manayunk, and Norristown, 17 miles. **GERMANTOWN RAILROAD.**—Cars leave from the foregoing depot, and run to Germantown, 6 miles from Philadelphia.

STEAMBOAT AND RAILROAD LINE FOR BALTIMORE.—A steamboat leaves from the foot of Dock street, every afternoon, for New Castle. See route, page 82.

STEAMBOATS leave Philadelphia for Burlington, Bristol, Trenton, Chester, Wilmington, Salem, Bridgeton, Marcus Hook, and for Cape May, during the season.

A line of steamboats run between Philadelphia and New York, touching at Cape May. Fare to New York, $2 00; and to Cape May, $1 00.

Ferry-boats run to Camden, Tacony, Gloucester, Red Bank, &c.

For Ocean Steamers, see Index.

HACKNEY COACH FARES IN PHILADELPHIA,

AS FIXED BY CITY ORDINANCE.

Hackney Coaches.—For conveying one passenger from any place east of Broad street, to any other place east of Broad street, within the city limits, 25 cents. For conveying one passenger from any place west of Broad street, to any other place west of Broad street, within the city limits, 25 cents. Each additional passenger, 25 cents. Not more than *four passengers* to be charged for any one carriage. For conveying one passenger from any place east of Broad street, to any place west of Broad street, or from any place west of said street to any place east of the

same, within the city limits, 50 cents. If more than one passenger, then for each passenger 25 cents. For conveying one or more passengers in any other direction, within the limits of the pavement, for each passenger, per mile, 25 cents. For conveying one or more passengers, when a carriage is employed by the hour, $1 per hour.

Baggage.—For each trunk or other baggage placed inside, at the owner's request, and which would exclude a passenger, for each passenger that might be excluded thereby, 25 cents. For each trunk, &c., placed outside, 12½ cents. Baggage placed outside not to pay more, in the whole, than 25 cents. The penalty for exceeding the above charges is a fine of $5.

Cabs.—For conveying one passenger from any place east of the centre of Broad street, to any other place east of the centre of Broad street; or from any place west of the centre of Broad street, to any other place west of the centre of Broad street, within the city limits, 25 cents. Each additional passenger 12½ cents. For conveying one passenger from any place east of the centre of Broad street, to any other place west of the centre of Broad street; or from any place west of the centre of Broad street, to any other place east of the centre of Broad street, within the city limits 37½ cents. Each additional passenger 12½ cents. For the use of a cab by the hour, within the city limits, with one or more passengers, with the privilege of going from place to place, and stopping as often as may be required, for each and every hour, 50 cents. Whenever a cab shall be detained, except as in the foregoing section, the owner or driver shall be allowed per hour, 50 cents. And so, in proportion, for any part of an hour exceeding 15 minutes. For conveying one or two persons, with reasonable baggage, to or from any of the steamboats or railroads, (except the Trenton and New York railroads,) 50 cents: more than two persons, each 25 cents. For exceeding the above charges, or for refusing or neglecting, when unemployed, to convey any persons or their baggage to any place within the limits prescribed by the ordinance, upon being applied to for that purpose, the penalty is a fine of $5.

Omnibuses leave the Exchange every few minutes for the various parts of the city, Fairmount, Girard College, &c. *Fare*, 6 *cents*.

A TABLE SHOWING THE DISTANCE, FARES, &c., FROM PHILADELPHIA, TO MANY OF THE MOST IMPORTANT PLACES IN THE UNION.

The following table will show, at a glance, the *distance*, *expense*, and *time*, occupied in travelling from Philadelphia to the most prominent points in the Union. Allowance, however, must be made in the rate of fares, when travelling in steamboats, upon lakes or rivers, as those modes of conveyance are subject to more or less competition, in which case the fares vary. Those given, however, are as accurate as can be obtained under the circumstances, and will, no doubt, be found near enough to make up a general estimate of expenses. The *time* given is that which is actually occupied in passing from one point to another,

the detentions between each route are not taken into consideration, as these the traveller must determine for himself. The *distances* are generally given by the shortest routes.

†From New York to Providence, via Long Island Sound.

‡From New York to New Bedford, via Fall River.

§ From Philadelphia to Pittsburg, via Pennsylvania R. R. and stage.

‖ The best route, at present, between Philadelphia and Cleveland, is by the way of New York City and the New York and Erie R. R. to Dunkirk, thence, by steamboat, to Cleveland. In the spring of 1852, a direct railroad route is to be opened through from Philadelphia to Cleveland, via Pittsburg, (493 miles,) which will greatly reduce both *time* and *distance* between Philadelphia, and Lake Erie, Detroit, Chicago, and the North-West.

¶ From Philadelphia to Pittsburg, by *railroad* and *stage;* from Pittsburg to Wheeling, by *steamboat* on the Ohio River; from Wheeling to Columbus, by *stage;* and from Columbus to Cincinnati, by *railroad.*

Fare, from Philadelphia to Reading, $2 25. *Time*, *about* 3 *hours*. Philadelphia to Pottsville, $3 50. *Time*, *about* 5 *hours*.

* From the Reading R. R., at Port Clinton, diverges the *Little Schuylkill R. R.*, running to Tamaqua, 20 miles.

† The *Mine Hill R. R.* unites with the Reading R. R., at Schuylkill Haven, and runs to Tremont, 12 miles.

‡ From Pottsville, a new and convenient line of travel has been established, to the Penn'a Central R. R., as follows: *cars* from Pottsville to Tremont; *stage* to Wiconisco, in Dauphin county; *Lyken's Valley R. R.* from Wiconisco to Millersburg, on the Susquehanna; *stage* thence to the Penn'a Central R. R., 7 miles.

Stages leave Reading, on arrival of the early train from Philadelphia, for Lancaster, and for Harrisburg, via Lebanon. From Pottsville, for Sunbury, Northumberland, and Williamsport; also, for Catawissa, Danville, &c.

REMARKS.—The Reading R. R. is a valuable artery in conducting to the city of Philadelphia the rich treasures from the coal fields which abound in Schuylkill county, and has contributed to make that city the greatest coal market in the Union. Another, and very important avenue to wealth, is opened to the enterprise of Philadelphia, in the extension of the road from Pottsville, so as to form a connection with the New York and Erie R. R. at Elmira. Let any person take a map of the United States (a work all should possess), and cast a glance at the route. Thus, it will be seen, that, from Philadelphia to *Pottsville*, (by the road already built,) is 94 miles; from Pottsville to *Sunbury*, is about 45 miles (19 miles of this road is opened for the transportation of coal from the Shamokin Coal Mines to Sunbury); from Sunbury to *Williamsport*, is about 35 miles; from Williamsport to *Ralston* (railroad already in operation) is 26 miles; from Ralston to *Elmira*, is about 50 miles. The whole distance, then, from Philadelphia to *Elmira*, is 250 miles; 33 miles less than from New York to the same place. Of this amount, 111 miles of railroad, only, is wanting, the balance being already built. The total

cost of which, at $30,000 per mile, would amount to the sum of $3.330,000.

By the construction of this road, Philadelphia would not only be brought nearer to the northern counties of her own State, but would draw off much of the trade and travel from Western New York, Canada West, and the North-Western States, which now go in other directions.

The distance from Philadelphia to Buffalo, via Pottsville, Williamsport, and Elmira, (and, also, via the Attica and Hornellsville R. R., which will be opened for travel before the road in question could be built,) would be 391 miles, and to Niagara Falls, 413 miles. These places are distant from Philadelphia, via *New York City*, the *Erie*, and *Attica and Hornellsville R. R.*, 511 and 533 miles.

It would not be so advantageous to Philadelphia to construct a line up the Susquehanna, from the Central R. R. at Harrisburg, as it would be to the city of Baltimore.

The Pottsville route for Philadelphia is undoubtedly the best, as it is nearer, and the trade over it could not be so well diverted as by the Susquehanna route. Baltimore has a connection with the Central road at Harrisburg, and if the Susquehanna route was adopted, the trade would naturally flow through that channel to Baltimore. It will, therefore, be to the interest of the Baltimoreans to construct that route.

* This island is celebrated as having formerly been the residence of a wealthy and distinguished Irish emigrant of that name, who lived here in great splendour; his house was the resort of the most literary and polished society. Unfortunately, this gentleman was induced by the celebrated Aaron Burr to join in a conspiracy, in which he embarked with all his wealth. It was, however, discovered; they were arrested, and tried for treason. Blennerhasset, though not convicted, was ruined; and his splendid mansion and pleasure-grounds, being deserted, went to decay, and now present nothing but a mass of ruins.

From Louis-v'le & St. L's.	ST. LOUIS TO LOUISVILLE AND CINCINNATI. (*Read up.*)	Place to Place.	From Cincinnati.

* This *cave* is pointed out to passengers on the Ohio as a great curiosity; its entrance is just above high water-mark; it is about 20 feet in height, and leads into a spacious apartment, with an arched roof elevated about 30 feet, and extending back 125 feet. About the year 1800, it was the rendezvous of a noted outlaw and pirate, by the name of Mason, who, with his band, subsisted by plundering flatboats on their way down the river, or by waylaying the unfortunate boatmen on their return, and robbing and murdering them. The leader of this notorious band of outlaws was finally shot by one of his own comrades, in order to gain a reward of $500, offered by the governor of Mississippi for his head.

N. B.—A recent arrangement has been made for the conveyance of passengers between Pittsburg and Cleveland, which forms a more speedy and comfortable route between the two places. It is by a line of Express Packets, running on the Pennsylvania and Ohio Canal from Beaver to Ravenna, where they will connect with the Cleveland and Pittsburg R. R. The railroad from Pittsburg to Beaver will be opened for travel during the summer, and the railroad through from Pittsburg to Cleveland, by the following spring, at which time the Pennsylvania R. R. will be completed through to Pittsburg, forming a great railroad route from Philadelphia to Lake Erie.

* Mansfield is on the *Mansfield and Sandusky R. R.*, and 56 miles from Sandusky City; passengers for Detroit and the North-West, should leave the route here. At Shelby, 11 miles north of Mansfield, and on the same road, the railroad from Cleveland intersects.

REMARKS.—The Ohio and Pennsylvania R. R. is a continuation of the Pennsylvania Central R R. from Pittsburg, passing through the State of Ohio to Bellefontaine (situated on the Mad River and Lake Erie R. R.), at which place it will connect with the Indianapolis and Bellefontaine R. R., and finally with a railroad running from Indianapolis to St. Louis. It will form a part of a direct, and shortest route, from New York and Philadelphia, to the West. The distance from Pittsburg to Cincinnati, by railroad, via Massillon and Columbus, will be 330 miles, (which, by the Ohio River, is 495 miles,) and will be travelled in about one-fourth of the time required by steamboats on the river.

The railroad between Philadelphia and Pittsburg is to be opened for travel in 1852, by which time the Ohio and Pennsylvania R. R., to its junction with the Cleveland, Columbus and Cincinnati R. R., is to be completed. The road from Pittsburg to Massillon, (107 miles,) is to be

opened for travel during the present year (1851), and from Pittsburg to Beaver in July.

The following are the various links which are to connect Philadelphia with the extreme western boundary of Missouri, which, on its completion, will be the greatest continuous line of railroads in the United States, or perhaps in the world. From Philadelphia to Pittsburg, 358 miles; from Pittsburg to the Indiana line, 300 miles; from the Indiana line, through Indianapolis, to Terre Haute, 150 miles; from Terre Haute to St. Louis, 160 miles; and from St. Louis to Independence, 300 miles; making 1,268 miles of railroad, already completed, or in process of construction.

A TABLE SHOWING THE DISTANCE, FARES, &c., FROM CINCINNATI, TO MANY OF THE MOST IMPORTANT PLACES IN THE UNION.

The following table will show, at a glance, the *distance*, *expense*, and *time*, occupied in travelling from Cincinnati to the most prominent points in the Union. Allowance, however, must be made in the rate of fares, when travelling in steamboats, upon lakes or rivers, as those modes of conveyance are subject to more or less competition, in which case the fares vary. Those given, however, are as accurate as can be obtained under the circumstances, and will, no doubt, be found near enough to make up a general estimate of expenses. The *time* given is that which is actually occupied in passing from one point to another; the detentions between each route are not taken into consideration, as these the traveller must determine for himself. The *distances* are generally given by the shortest routes.

ROUTES FROM INDIANAPOLIS, IA.

REMARKS.—Indianapolis is the grand centre of a very extensive system of internal communication, and which, on its completion, will connect her either directly or indirectly with the most important places in the Eastern, as well as the Western States. For this she is in a great measure indebted to her geographical position, being situated in the centre of the State of which she is the capital. (By referring to the Map this will be made more apparent.) Indianapolis is, also, on the great high road from the East, via Pittsburg and Wheeling, to St. Louis, and will become more closely connected with the great marts of trade, by the construction of the Indianapolis and Bellefontaine Railroad, which, at the latter place, will unite with the Ohio and Pennsylvania Railroad. These will intersect, in their course, the various routes pervading the growing State of Ohio, which are destined to be numerous. Its route will be nearly central, and will connect with routes to Philadelphia, via Pittsburg; to Baltimore, via Wheeling and Cumberland; to New York, via the New York and Erie Railroad; and to Boston, via Buffalo and Albany. Railroads constructed, and others in progress, diverge from her in a southerly direction to the Ohio River, in a westerly, to Illinois and St. Louis; and in a north and north-westerly direction to important places on the Wabash, which will in due time be continued to Lake Michigan, Chicago, and Northern Illinois. The first great link, from Indianapolis to Terre Haute, which is to connect her with St. Louis, by a continuation of this road across the State of Illinois, via Vandalia, is now being constructed, and through this, at no distant day, perhaps, with the great Pacific Railroad.

*From this point diverges the *Shelbyville Lateral Branch R. R.*, running to *Shelbyville*, 16 miles, at which place it connects with the *Rushville Lateral Branch R. R.*, running to *Rushville*, a distance of 20 miles. At *Shelbyville*, also, the *Knightstown and Shelbyville R. R.* unites with the preceding ones: it runs to Knightstown, 27 miles.

The *Martinsville R. R.* connects with the Madison and Indianapolis road, about *three* miles north of Edinburg, and runs thence to *Martinsville*, a distance of 29 miles. This road will, probably, be opened for travel in July.

†Columbus will be the place of intersection for the *Jeffersonville and Columbus R.R.*, extending from Jeffersonville, on the Ohio, to Columbus, 66 miles. This road is in progress and a portion of its southern end open for travel.

The *Columbus, Nashville and Bloomington R.R.*, is, also, designed to connect with the Madison and Indianapolis road, at Columbus; it will extend westward from the latter place, through Nashville to Bloomington, a distance of about 40 miles. It is in progress.

Steamboats leave Madison for Louisville, Ky., and Cincinnati, daily. See Route from Cincinnati to Indianapolis, via Madison, p. 118.

ROUTES FROM BALTIMORE, MD.

The following are routes diverging from Baltimore; the traveller will refer to each respectively as may be required.

PHILADELPHIA, WILMINGTON, AND BALTIMORE RAILROAD.—*Depot in Pratt Street.* This route leads to Havre de Grace, Wilmington, and Philadelphia. See page 82.

BALTIMORE AND OHIO RAILROAD.—*Depot in Pratt Street.* This route leads to Frederick, Md., Harper's Ferry, Cumberland, Pittsburg, Wheeling, and the West. From Harper's Ferry to Winchester, Va., and the Virginia Springs. See pages 143 and 145.

WASHINGTON BRANCH RAILROAD—*Depot in Pratt Street.* This route leads to Washington, Fredericksburg, Richmond, and the South. Also to the Virginia Springs, *via* Gordonsville. The *Annapolis Branch R. R.* runs to Annapolis, the capital of Maryland. See page 83, and following pages.

BALTIMORE AND SUSQUEHANNA RAILROAD—*Depot corner of Calvert and Franklin Streets.* This route leads to York, Pa., Harrisburg, Pittsburg, and to places on the Pennsylvania R. R. Also from York to Columbia, Lancaster and Philadelphia. See pages 93 and 144.

STEAMBOATS run from Baltimore to Piney Point, and up the Potomac to Acquia Creek Landing, connecting there with the railroad route to the South.

Also, from Baltimore to Norfolk, Va., and up James River to Richmond, connecting there with the railroad route running *north* to Fredericksburg, and *south* to Petersburg, Weldon, &c.

Also, from Richmond to the Virginia Springs, Natural Bridge, &c.

HACKNEY COACH FARES IN THE CITY OF BALTIMORE.

1. *Steamboat and Railroad Depots.*—From any steamboat landing or railroad depot, to any hotel or private residence within the limits of the city, for a single passenger, 50 cents. If two or more, each, 37½ cents. And for each trunk, box, or bag, of sufficient size to be strapped on, 12½ cents. No charge for small parcels put in the carriage.

2. *To any Steamboat or Railroad Depot.*—The same fare and charge for baggage, with an addition of 50 cents for the carriage when only sent for from the stable.

3. *City.*—Within the following limits, assuming Calvert street as the centre of the city, and extending east to Canal street, west to Green street, south to Great Montgomery street, and north to Biddle street, for a single passenger, 37½ cents. If two or more, each, 25 cents. If beyond these limits, and anywhere within the city boundary, 12½ cents additional for each passenger.

4. *Time.*—For the use of a hackney-coach by the hour, $1 00, and at the same rate for all fractions of an hour, but no charge for any time less than a quarter of an hour.

5. *Evening and Night.*—For hacks taken from the stand to any part of the city, as follows: from 1st May to 30th September inclusive, after 8 o'clock, P. M., 75 cents for a single passenger; if more than one, 50 cents each: a like sum for returning. From 1st October to 30th April, inclusive, after 7 o'clock, P. M., the same. *No charge for baggage.*

6. *Exchange and Fell's Point.*—From South Gay street to any part of Fell's Point, not farther east than Washington street, 25 cents, and 25 cents back for each passenger.

General Rules.—1. An additional allowance of 25 cents for the carriage only, when sent for from the stand. 2. Children over ten years, half-price; no charge under that age. 3. Stopping 15 minutes, or leaving the carriage, to make a new charge. 4. All cases not provided for in these rules, left to agreement of the parties.

A TABLE SHOWING THE DISTANCE, FARES, &c., FROM BALTIMORE, TO MANY OF THE MOST IMPORTANT PLACES IN THE UNION.

The following table will show, at a glance, the *distance*, *expense*. and *time*, occupied in travelling from Baltimore to the most prominent points in the Union. Allowance, however, must be made in the rate of fares, when travelling in steamboats, upon lakes or rivers, as those modes of conveyance are subject to more or less competition, in which case the fares vary. Those given, however, are as accurate as can be obtained under the circumstances, and will, no doubt, be found near enough to make up a general estimate of expenses. The *time* given is that which is actually occupied in passing from one point to another; the detentions between each route are not taken into consideration, as these the traveller must determine for himself. The *distances* are generally given by the shortest routes.

* The most expeditious and convenient route from Baltimore to Cleveland, and the North-West, is *via* New York City and the New York and Erie R. R. to *Dunkirk*, thence by *steamboat* to *Cleveland*, *Detroit*, *Chicago*, &c. Passengers taking this route, will avoid both stage and canal travel.

In the spring of 1852 the Pennsylvania R. R., through to Pittsburg, and the Pittsburg and Cleveland R. R., are to be opened. These will then form the best route from Baltimore to the North-West.

From BALTIMORE to PHILADELPHIA, see page 82.

Stages run between Frederick and Hagerstown, Md. The latter place is, at present, the *terminus* of the Franklin R. R. Passengers here may reach Chambersburg, Harrisburg, &c., by railroad. At the latter place a connection is formed with the Pennsylvania Central Railroad.

* Passengers for Washington can stop at the *Relay House* and take the cars thence direct to that city.

† Passengers for *Frederick, Md.*, stop here and take the branch road running to that place, 3 miles.

‡ Passengers for Winchester, Va., and the Virginia Springs, stop here. The *Winchester R. R.* diverges from this point. See route from Baltimore to Winchester and the Virginia Springs, page 145.

§ At Cumberland passengers take the *stage*, for a ride over the Mountains; those for Pittsburg, leave that conveyance at *Brownsville*, on the Monongahela, and resume their journey by *steamboat*.

Passengers taking the *Youghiogheny Route* to Pittsburg, leave Cumberland at 5 A.M., crossing the Mountains, by *day-light*, and reach *West Newton*, on the Youghiogheny River, the same night. Here they lay over till next morning, leaving at 7 A.M. by *steamboat* for Pittsburg, which place is reached in time to connect with the Cincinnati packets, leaving the same day.

See Routes from Wheeling, p. 112.

REMARKS.—The *Baltimore and Ohio R. R.* is now being continued from Cumberland to the Ohio River, at Wheeling, Va. It is designed to cross the Suspension Bridge at that place, into Ohio, where it will unite with a railroad intended to pass through that State to Zanesville and Columbus. From the latter place one is already in operation to Cincinnati, and also to Cleveland, on Lake Erie. By means of these it will connect with the railroads completed and in progress, pervading the States of Ohio and Illinois.

A very important connection with the Baltimore and Ohio R. R. is about to be made by the construction of the *Virginia North-Western R. R.* This branch will leave the main road at a point near *Clarksburg, Va.*, and extend nearly in a straight line to the Ohio at Parkersburg. From Belpre, O., on the opposite side of the river, another road will be constructed, so as to form a direct route to Cincinnati, and thence by another road (already chartered) to St. Louis, via Vincennes. When these several lines are completed, there will be nearly an "Air Line" route between Baltimore and St. Louis; thus forming the shortest and most direct route from *tide-water* to the Mississippi.

For other routes from Charleston, see following pages.

A TABLE SHOWING THE DISTANCE, FARES, &c., FROM CHARLESTON, S. C., TO MANY OF THE MOST IMPORTANT PLACES IN THE UNION.

The following table will show, at a glance, the *distance*, *expense*, and *time*, occupied in travelling from Charleston to the most prominent points in the Union. Allowance, however, must be made in the rate of fares, when travelling in steamboats, upon lakes or rivers, as those modes of conveyance are subject to more or less competition, in which case the fares vary. Those given, however, are as accurate as can be obtained under the circumstances, and will, no doubt, be found near enough to make up a general estimate of expenses. The *time* given is that which is actually occupied in passing from one point to another; the detentions between each route are not taken into consideration, as these the traveller must determine for himself. The *distances* are generally given by the shortest routes.

ROUTES FROM NEW ORLEANS.

From New Orleans to Baton Rouge, Natchez, Vicksburg, Memphis, and St. Louis, &c., see pages 108 and 109; and from St. Louis to the Falls of St. Anthony, see pages 105 and 106.
From New Orleans to Louisville, Cincinnati, &c., see pages 106, 107, and 108; and from Cincinnati to Pittsburg, see page 104.
From New Orleans to Mobile, see page 86.

The following table will show, at a glance, the *steamboat* distances from New Orleans, to the principal places on the Mississippi Rivers, with the *probable* fare to be paid to reach either. These, however, are liable to change, owing more or less to competition, and the low stages of the water, which it will be necessary for the traveller to bear in mind.

From Oregon.	OREGON CITY TO ST. LOUIS. (*Read up.*)	Place to Place.	From St. Louis.

St. Joseph is another prominent starting-place on the Missouri frontier; it is situated on the Missouri River. and may be reached, by *steamboat*, from St. Louis, a distance of 450 miles. The emigrant trail crosses the river, and reaches the edge of the great Western plains, *seven* miles distant. It is marked out with the distinctness of an ordinary road. Thirty miles farther is the *Indian Mission* established by Government, which consists of a fine farm, a few log houses, store, and a school for Indian children. *One hundred and ten miles* from the Missouri the Blue Earth River is reached, a clear and handsome stream of pure water, 30 feet wide. On crossing the stream, the road passes over high ridges of table-lands, for 70 miles, to Little Blue Earth River, along the beautiful valley of which it runs for about 80 miles, on leaving which, the trail strikes across a high range of table-lands for 20 miles, in a northern direction, reaching the Nebraska or Platte River Valley, 15 miles below Fort Kearny. This fort is situated at the head of Grand Island, in the River Platte, 292 miles from *St. Joseph*, and has an altitude of 2,000 feet above the Gulf of Mexico.

In passing along the North Fork of the Platte, between Ash Hollow and Fort Laramie, a singular formation of rock and sand may be seen, called the "Court-House;" it stands alone, and at a distance bears a close resemblance to a court-house or church. It is 200 feet square, 800 feet high, and has on its top what would be taken for a large dome or cupola. The next object of attraction is "Chimney Rock," which is seen at a distance of 30 miles, standing out in bold relief. Its base is about 300 feet in diameter, which tapers off to within 100 feet of the top and then becomes square, being about 50 feet in diameter; a solid shaft of rock then ascends at least 100 feet into the air, making a main height of 400 feet from the base. *Twenty miles* farther on are "Scott's Bluffs," a beautiful rocky formation, extending three miles along the river, having an elevation of between 300 and 400 feet. "Castle Bluffs" are also an attractive formation of rocky bluff, many parts of which are very fantastic and grotesque, resembling ancient castles, palaces, forts, &c.

Fort Laramie, 625 miles from St. Joseph, Mo., is situated at the eastern *terminus* of Laramie Valley, about 1½ miles from the Platte. It is government property, and consists of a building 200 feet square, with a yard in the centre. Its altitude is 4,090 feet above the ocean. "Laramie Peak," 100 miles from Fort Laramie, can be seen at a distance of 150 miles; its altitude is about 11,000 feet. A few miles distant from the Sweet Water are a number of *salæratus lakes*, some of which are half a mile square. "Independence Rock" is situated on the north side of the Sweet Water, 216 miles from Fort Laramie; it is composed of solid granite, covering an area of about *five acres*, and arising in conical form, about 400 feet above the level of the surrounding country; it is seen at a great distance, and hence serves as a landmark of the emigrant. This extraordinary rock was named by a party of Americans, who chanced to pass that way one Fourth of July, whence they proceeded to celebrate the great events of that period, by a succession of revellings, festivities, and hilarities, which having been concluded, they all inscribed their names, together with the word "Independence," upon the most conspicuous portion of the rock: hence its name and notoriety, which are as firmly established, by the act, as that rock of ages itself. Upwards of 5000 names are inscribed upon it.

On approaching the "South Pass," the ascent is so gradual, that it is difficult for the traveller to find the precise summit; yet the point of

culmination is between two hills, about 60 feet high. It is *nineteen miles* wide, and without any gorge-like appearance. Its altitude is 7,489 feet.

In the year 1849, Major Emory wrote to the Government an account of a remarkable river spring which broke out in the summer of that year, in that portion of the country between the mouth of the Gila River and the mountains, usually called the "Desert," sometimes the "Jornada." A river, 40 feet wide, and more than waist-deep, has appeared in the middle of this desert, affording delicious water to drink, and making an oasis at the most convenient spot for the traveller. The overland emigrants who took that route previous to the 20th of June, suffered dreadfully from thirst. Those who came after the first of July, found plenty of water. In connection with it, a fine fresh-water lake was formed a few miles distant. *It is represented upon our Map of California, Oregon, &c., and may be found on the "Gila Route," west of the Rio Colorado.*

Fort Smith is situated on the Arkansas River, about *four* miles from Van Buren. It is the garrison on the eastern line of the Choctaw nation, and has grown into a town of upwards of one thousand inhabitants. There are several stores here, and a good trade is carried on with the Indians. *Van Buren*, on the left bank of the same river, lower down, has about the same number of inhabitants, but is quite different in feature, the streets being entirely free from grotesquely-dressed Indians. It is a shipping point for wheat and other produce, received from the more northern settlements.

* From Sierra Waco to *El Paso del Norte*, the distance is about 35 miles.

Dona Ana is situated on the east bank of the Rio Grande del Norte, about 50 miles north from El Paso. From Dona Ana to the Pacific the "Gila Route" is taken. See Route from Santa Fe to San Diego and Sacramento City, page 179.

Captain Marcy says, in his Report, that the best season for emigrants to leave the United States for California, upon the southern route, is about the first of June. There would then be good grass and water to the Rio Grande, and they would reach there about the last of July, and would have time to stop two or three weeks. to graze and recruit their animals, and lay in additional supplies, should they require any, for the remainder of the journey.

There is abundance of wood and grass at all places upon the road. From Fort Smith to the Big Spring, 513 miles, there is water at short distances along the whole route. From the Spring to the Rio Grande water is not so abundant, and certain points have to be made, from day to day, to get it. On the Santa Fe road, from Fort Smith, there are but few places where wood and water cannot be found, at convenient distances.

NEW YORK TO CALIFORNIA, VIA THE ISTHMUS OF PANAMA.

This is the most expeditious and comfortable route for reaching California. Regular lines of steamers run between New York and Chagres, touching at Havana and Kingston, Jamaica; and from Panama, on the Pacific, to San Francisco. The time usually occupied is from 30 to 35 days, provided there is no detention on the Isthmus. In order to avoid this, passengers should purchase a *through ticket before leaving New York*. The price of passage from New York to Chagres, by *steamship*, varies from $50 to $150, according to accommodations. From Chagres to Panama, (land route, 50 miles,) including 150 pounds of baggage, about $10; and from Panama to San Francisco, from $150 to $300. Steamers run between San Francisco and Oregon.

For the distances from New York to Chagres and San Francisco, see page 43.

The route by the way of Cape Horn occupies about *five months*, the distance being 17,000 miles. The price varies from $100 to $300, according to the accommodations on board. Passage may be procured at any of the principal sea-ports.

We have just received the following notice, issued by a new Mexican Transportation Company, which is given for the benefit of those whose route may take them through the republic of Mexico:

"Passengers coming from or going to California, are informed that the Direction of the Express Line will convey them from Vera Cruz to Puente d'Ixtia, in covered wagons, and from that place to the port of Acapulco, on horseback, and *vice versa*. In order to afford proper safety

to the passengers, we announce to the public that the Supreme Government, besides having engaged to establish a guard upon the roads we traverse, has granted us permission competently to arm the persons we employ.

RATES OF FARE AND TIME.

THE

TOURIST'S GUIDE

TO PLACES OF FASHIONABLE AND HEALTHFUL RESORT.

THE WHITE MOUNTAINS of New Hampshire are situated in the county of Coos, and extend from S. W. to N. E., about 20 miles. *Mount Washington*, the most elevated peak, is 6,243 feet above the level of the sea. (This was formerly considered the highest elevation in the United States, east of the Rocky Mountains, but it has been found to be surpassed in height by "Mitchell's Peak," in N. Carolina, the altitude of which was determined a few years ago by the gentleman from whom its name is derived.) The other peaks are *Mount Adams*, 5,767 feet; *Jefferson*, 5,665; *Madison*, 5,384; *Monroe*, 5,298; *Franklin*, 4,854; and *La Fayette*, 4,723. The ascent to the summit of Mount Washington has now become not only *fashionable*, but a pleasing and healthful recreation to those who are strong enough to bear the fatigue consequent on such an undertaking. There is no danger whatever to be apprehended; careful and experienced guides always accompanying visitors.

The Notch of the White Mountains is a very narrow defile, extending for two miles between huge cliffs, apparently rent asunder by some great convulsion of nature. Its entrance, on the east side, is formed by two rocks standing perpendicularly, about 20 feet from each other. The scenery here is exceedingly grand. After proceeding a short distance, a beautiful cascade may be seen, issuing from a mountain on the right, and passing over a series of almost perpendicular rocks, with a course so little broken as to preserve the appearance of a uniform current. This lovely stream falls over a stupendous precipice, forming the *Silver Cascade*.

About a mile distant from the entrance is a brook, called the *Flume*, a stream of water falling over three precipices, from a height of 250 feet. Over the first two it falls in a single stream, and over the last, in three; these again unite at the bottom in a natural basin formed in the rocks.

The *Willey House* stands in the White Mountain Notch, a short distance from a bluff, which rises to the height of about 2,000 feet. It is noted as having been the residence of the Willey family, who perished on the 28th of August, 1826, by an avalanche or slide from the mountain.

From the road leading through the *Franconia Notch*, may be seen, on the mountain opposite to La Fayette, the *Profile Mountain*; or, as it is called, the "*Old Man of the Mountain*;" and in the same notch, a short distance south, the *Basin* and *Flume*, objects of the greatest interest to the lovers of the sublime and curious. The Profile Mountain rises to the height of 1,000 feet. The bare rock on which the profile is delineated, is granite; from its long exposure to the atmosphere, it is of a

dark reddish-brown. A side-view of this projecting rock, near the peak of the mountain, looking from the north, exhibits a profile of the human face, in which every line and feature are distinctly marked; but after passing the mountain to the south, the likeness is lost.

Routes to the White Mountains.—The route by way of Portland may be considered one of the most eligible, and for beautiful scenery cannot be surpassed. This city, the commercial metropolis of the State of Maine, is situated 105 miles from Boston, from which it may be reached by railroad, either via the Eastern or the Boston and Maine R. R. From Portland, the Atlantic and St. Lawrence R. R. is rapidly approaching completion, and will be opened this season to *Gorham*, 95 miles, and five miles from the base of Mt. Washington. In order to accommodate the travel by this route, a hotel has been erected, and a road laid out to the summit, on the north side of the mountain.

There is another route from Portland open to the traveller, which is also very delightful. From Portland, by *stage*, to *Standish*, at the foot of Sebago Pond; thence, by *steamer*, over the romantic lake, through Crooked River, and over Long Pond to *Bridgeton Centre;* thence, by *stage*, to *Conway*, via Fryeburg. On the road between Bridgeton and Fryeburg is *Pleasant Mt.*, an isolated peak, some 2000 feet high, on the summit of which is an hotel, recently erected, which is now a stopping-place for many travellers, the view from it being very fine. At Conway, N. H., passengers stop for the night at Hill's *Pequawket House*, where they meet with every attention and comfort; and the next morning proceed, by *stage*, through *Bartlett* to the Notch, passing successively *Old Crawford's*, near which is *Crawford Mountain*, the *Willey House*, (*Tom Crawford's*, who has recently erected an extensive house,) and arrive early in the afternoon at *Fabyan's White Mt. House.*

To reach the "Franconia Notch," visiters should hire an extra at *Fabyan's*, for *Bethlehem*, and thence to *Gibbs' Lafayette House*, 16 miles. At the latter place a conveyance may be hired to *Taft's Flume House*, five miles, passing the *Old Man of the Mountain*, the *Basin*, and the *Flume.* Returning to "Gibbs'," passengers may take the stage to *Littleton*, 12 miles; thence to *Wells River*, 20 miles; thence by the Connecticut and Passumpsic River R. R., &c., to *Bellows Falls;* and thence there is a railroad communication to Boston, New York, Albany, &c. From "Gibbs'," persons may also reach Concord, Boston, &c., by taking the *stage*, passing through the Franconia Notch to *Plymouth*, (on the Boston, Concord, and Montreal R. R.,) thence, by *railroad*, to those places.

Another route from Boston is by *railroad*, to *Concord*, 76 miles, thence to *Plymouth*, 51 miles. The cars reach the latter place about one o'clock. Passengers dine at the *Pemigewasset House;* after dinner proceed, by *stage*, up the romantic valley of the Pemigewasset, to the *Flume House*, 24 miles, situated near those curious natural attractions, the Flume and the Pool; and thence through the "Franconia Notch," passing the "Basin," and the "Old Man of the Mountain," to *Gibbs' Lafayette House*, distant from Plymouth 29 miles, from Boston 153 miles. Travellers may proceed the same evening, or the next morning, from the "Flume House," or "Gibbs'," to "Fabyan's," Tom Crawford's, the Willey House, or Old Crawford's. From the latter place they may proceed to Conway, via the White Mountain Notch, and thence to Portland.

Passengers taking the *Lake Route*, leave the Boston, Concord, and Montreal R. R., at *Weir's Station*, on Lake Winnepisseogee, go immediately on board the steamer, cross the lake to *Centre Harbour*, 10 miles, and arrive at *Coe's Hotel* at 1 P. M.; making the trip from Boston in

5½ hours, and from New York in 19 hours. From Centre Harbour the traveller is conveyed, by *stage*, to Conway, 30 miles, passing *Red Hill*, *Sandwich*, *Ossipee*, and *Chocoruo Mt.*, arriving there before dark. The next morning leave for *Old Crawford's*, 24 miles; the *Willey House*, 6; through the Notch of the White Mountains to *Tom Crawford's*, 2, and *Fabyan's*, 4. From Boston, 182 miles.

Should the traveller be disposed to tarry awhile at Centre Harbour, he will find opportunities for trout fishing, and making excursions upon the beautiful Lake Winnipisseogee, with its 365 islands, resembling, in many respects, the lovely Lake George.

It would be advisable for the traveller to take either one of these routes to the Mountains, and return by the other; by doing so he will have the best opportunity for enjoying all the varied scenery of this wild, picturesque, and healthful region.

Passengers leaving New York can take either of the routes, via Boston; or may proceed by railroad, via New Haven, Hartford, Springfield, Brattleboro', Bellows Falls, to Wells River, on the Connecticut and Passumpsic Rivers R. R.; thence by *stage* to Littleton, N. H., and Fabyan's White Mt. House.

NIAGARA FALLS are situated on the Niagara River, 14 miles above Lake Ontario, and 23 below Lake Erie, on the New York side. The river forms the outlet of the great lakes, which are estimated to contain nearly one-half of the fresh water on the surface of the globe. Three-fourths of a mile above the Falls the river begins a rapid descent, which at that place forms a powerful current; it then turns at a right angle to the N. E., when it is suddenly contracted in width from three miles to three-quarters of a mile. Below the Falls the river is only half a mile wide, but its depth exceeds three hundred feet. The cataract is divided into two parts by Goat or Iris Island, containing about 75 acres; but the principal channel is on the Western or Canadian side, and forms the Great Horse-shoe Fall, over which about seven-eighths of the whole body of water is thrown. The eastern channel between Goat Island and the State of New York is again divided by a small island, named Prospect, forming a beautiful cascade. The fall on the American side is 164 feet, and on the Canadian 158 feet. The amount of water passing over the Falls has been computed at 670,000 tons per minute.

The best view of the *Cataract* is that from Table Rock on the Canada side; of the *Rapids*, from Goat Island; and of the *American Fall*, from the ferry. The best view of the *Horse-shoe Fall*, is from the Canada side.

A bridge connects Bath and Goat Islands with the main land; on the former is a toll-house, where visitors inscribe their names, and pay a fee of 25 cents, which entitles them to visit all the islands, during their visit, without additional charge. Guide-boards will be found on Goat Island, directing visitors to the most interesting places and objects around the island. Terrapin Bridge projects out about 300 feet from the west part of Goat Island, at the end of which is *Prospect Tower*, a stone building erected in 1833, 45 feet high, with stairs leading to an open gallery on the top, surrounded by an iron balustrade, from which the view is very grand. The visitor, from this height, can look down into the boiling cauldron of waters.

On Goat Island is the "Biddle Stairs," which lead to the bottom of the Falls, affording an opportunity of descending below the bank, and passing some distance behind the two main sheets of water. A common flight of steps leads down 40 feet, running to the head of the staircase, which is about 80 feet, having 90 steps; from this down to the river the

descent is 80 feet more; making the entire distance from the top, 185 feet. From the foot there are three paths leading to the most important points of observation; one of which runs to the river below, distant about 80 feet; and where visitors will find an excellent *fishing-place*. The path at the left of the staircase leads to the Crescent, or Horse-shoe Fall, where, when the wind blows up the river, a safe passage is opened behind the sheet of water. The path to the right leads to the *Cave of the Winds*. It is 120 feet across, 50 wide, and 100 high, and is situated directly behind the Centre Fall, or Cascade. A short distance below the Falls, on the American side, is another staircase leading to the Ferry, from which a charming view of the entire Falls may be had. The ferry is crossed without danger, in about ten minutes. The visitor on being landed on the Canada side, proceeds up the bank, at the top of which stands the Clifton House, where refreshments may be obtained; and afterwards proceeds toward *Table Rock*, where will be found a spiral staircase, from the foot of which persons may pass 153 feet behind the sheet of water. The person in charge of it will furnish a guide and suitable dress. The *Museum* stands a short distance from Table Rock.

The *Whirlpool* is situated three miles below the Falls, and the "Devil's Hole" a mile lower down; the latter embracing about two acres, cut out laterally and perpendicularly in the rock by the side of the river: it is 150 feet deep.

The *Suspension Bridge* spans the narrow gorge, between the Cataract and the Whirlpool, in view of both, by an arch 800 feet long, 40 wide, and 230 above the water. The *Burning Spring*, a curiosity, is on the Canada side, half a mile above the Falls, and within a short distance of the rapids in the Niagara River. The villages of *Chippewa* and *Lundy's Lane* are on the same side of the river, and are noted as having been battle-grounds of the English and Americans, during the war of 1812.

SARATOGA SPRINGS.—This is the most popular watering-place in the United States, and one of the most celebrated in the world. It is situated in the State of New York, 39 miles north from Albany, 32 from Troy, and 184 from the city of New York. It is visited by persons from all parts of the United States, and also from foreign countries. During the season, particularly July and August, the hotels, and other places of accommodation, are much crowded. The constant stream of visitors arriving and departing at this juncture, imparts to the place a scene of gaiety and bustle that is known at no other time. The principal hotels are closed at the end of the season; but some of the smaller ones, and also private boarding-houses, remain open, for the accommodation of invalids, during the year. The price of board varies with the accommodations received: $2 per day, for each person, however, is what is usually charged at the first-class houses; although at private boarding-houses, and second-class hotels, it may be obtained at from $4 to $8 per week.

The Saratoga waters are useful in many diseases, and have an almost magic effect upon the system, when relaxed or exhausted by disease or sedentary habits. After drinking the waters for a short time, the appetite improves, and the entire system feels their invigorating effects. Persons using the water as a cathartic should rise early, drink from one to two pints of the sparkling beverage, dipped fresh from the spring, and then take a short walk around the beautiful grounds in the vicinity, whence they can return and again drink at the spring. No charge is made for the water, except what visitors voluntarily give those who wait upon them at the spring. It is recommended that persons afflicted with any serious disease should first consult their physician as to the

propriety of using these waters, otherwise they may be more injurious than beneficial.

The *United States Hotel* is regarded as the most fashionable house in Saratoga. It is centrally situated, and is in the vicinity of the railroad depot. and the principal mineral springs. It can accommodate from 400 to 450 persons. The two next best and most extensive houses, are *Union Hall* and *Congress Hall*, both of which are situated in the south part of the village, and near the Congress Spring. There are several other houses here which afford excellent accommodations, and where, perhaps, the retired visitor can find a home more congenial to his feelings, then among the devotees of fashion. In the vicinity of the Springs are several public bathing-houses, where baths, hot, cold, or shower, can be obtained at all times.

Congress Spring, *Empire Spring*, *Washington Spring*, *Columbian Spring*, *Hamilton Spring*, *Pavilion Spring*, *Putnam Spring*, *Iodine Spring*, and the *Flat Rock* and *High Rock Springs*, are among the most valuable for their medicinal properties. The "Ten Springs" are situated a short distance east of the village.

Saratoga Lake, a most lovely spot, lies six miles south from Saratoga, and the same distance from Ballston Spa. It is nine miles long, and three wide, and is much resorted to by company from the neighbouring watering-places, for *fishing*, *fowling* and *boating*. The shore of this lake is accessible in a few places only, on account of the marshes which border it. The country around the lake rises gradually into elevated ridges, forming a vast amphitheatre of picturesque landscape, embellished by cultivation. On the eastern shore, three miles from the south end, Snake Hill projects into the basin.

Long Lake, five miles south from Ballston Spa, is another beautiful sheet of water, situated in the midst of very agreeable scenery; it is five miles long by one wide, and abounds with fish. Game is abundant in the surrounding country.

By means of railroads diverging from Saratoga, speedy communication is opened with Troy and Albany, and thence to New York; also, to Springfield, Boston, Hartford, &c. Persons going direct from the Springs to Niagara, will take the railroad to Schenectady, thence by the Albany and Buffalo route, passing through the beautiful towns of Utica, Syracuse, Auburn, Geneva. Rochester, Buffalo, &c, From Saratoga, a railroad runs to Whitehall, connecting with steamboats running on Lake Champlain.

Persons going to Lake George, leave by the Saratoga and Washington R. R., stopping at *Moreau Station*, 16 miles from Saratoga, thence by *stage*, over a fine *plank* road, to Caldwell, 14 miles. This will be found a most delightful route, abounding in lovely scenery and historical reminiscences. The driver, (if requested,) will stop at Glen's Falls, (five miles,) to give persons an opportunity of viewing the wild and exciting scene from the bridge. The waters flow in one sheet over the brink of a precipice, 900 feet wide, and, in freshets, rush in one mass down the cataract; but in ordinary seasons they are divided, by rocks, into three channels, with an angular descent of several hundred feet.

Seven miles from Glen's Falls, and *two* from Caldwell, may be seen *Bloody Pond*, a small sheet of water, known since the French war by that name. from the fact that, after a battle fought near it, 1,000 French, English, and American dead were thrown into it. It is on the *right*-hand side of the road, going towards Caldwell; the *mile-stone* is at its head. Unless it is pointed out, it may be passed unnoticed, as it lies below the road, and is surrounded by foliage. A mile distant is the rock

on which Major Williams was slain by the Indians, about the same time.

Caldwell, a village bordered by a range of hills, (one of which attains an elevation of 1,900 feet.) situated at the head of Lake George, is one of the most lovely places imaginable, to spend a few days during the summer season. At *Sherrill's Lake House*, an excellent hotel, visitors may meet with the best accommodation. At the south end of the lake are the almost imperceptible ruins of forts George and William Henry, rendered interesting, from their historical reminiscences.

From Caldwell, persons can make a tour of this charming lake, by taking the *steamboat*, (which leaves every morning and runs to the foot of the lake,) 36 miles; thence by *stage*, 4 miles, to the ruins of Fort Ticonderoga, on Lake Champlain. There is an hotel here, where dinner may be had; parties, if they please, may return in the afternoon to the lake, and reach Caldwell the same evening. Those bound for Canada, or places on Lake Champlain, will meet the boat from Whitehall, at the landing soon after dinner; and those for Whitehall, will meet the boat on its way from Canada at an earlier hour, and may return, by railroad, to Saratoga and other places.

CATSKILL MOUNTAINS.—This fashionable and healthful resort lies in the State of New York, on the west side of the Hudson River, and may be reached from the city of New York, by *steamboat*, landing at the village of Catskill, situated 111 miles up the river, and 34 from Albany. Coaches, so arranged as to be at the steamboat landing on the arrival and departure of the boats, run regularly to and from the mountain, for the conveyance of passengers, and also to enable those who are so inclined, to visit the different falls in the vicinity. The time required for ascending to the Mountain House, a distance of 12 miles, is usually four hours, and the fare $1 25;—half that time being sufficient to return.

The Catskill Mountain House, better known as *Pine Orchard*, is situated upon the summit of one of the principal mountains, known as "Table Rock," at an elevation of 2,500 feet above the Hudson. This rock terminates a few feet in front of the house, in a fearful precipice, from the brow of which the inexperienced beholder starts back in uncontrollable alarm. "In the rear, peaks upon peaks arise in every direction, and far away in the distance, all covered with luxuriant foliage. No description can do justice to the almost illimitable prospect in front. Standing upon the piazza or rock, you seem to have left the earth, and to be gazing from some ethereal height down upon the world and its concerns. You see nothing above or around you—all is below—even the clouds wheel and roll in fleecy grandeur at your feet. Forests, meadows, harvest-fields, plains, mountains, rivers, lakes, cottages, villages and cities, are seen in every direction. A deep repose seems to have settled upon the world. No sound reaches you, except, perhaps, the rattle of the thunder from some distant hill, or the sweet song of the mountain-bird upon the tree beneath you."

The *South* and *North Mountains* are peaks a short distance from the house, affording different, and, if possible, still more magnificent views. Good foot-paths lead to these points; and, aside from the prospect, the cool, bracing air renders these, and many other walks about the mountain, invigorating and delightful.

The "*Catskill, or Kaaterskill Falls*," to which carriages run for the accommodation of visitors, are about 2½ miles west of the hotel. The body of water is small, and comes from two lakes on the summit of the mountain. It precipitates itself over a rock at the outlet of one of the

lakes, to the depth of 180 feet, then runs about 100 feet, and springs over another rock to the depth of 80 feet more. The descent to the bottom, by a flight of steps, is rendered perfectly safe and easy. Passing behind the water you enter a cavernous amphitheatre, whose rocky vault extends far in front, and the falling spray seems a curtain of mist let down at the entrance. Looking beyond, the moss-covered rock seems to be rising to the very heavens above, and you may readily imagine yourself in some dilapidated cathedral of nature, the roof of which has long since disappeared.

LEBANON SPRINGS, a delightful watering-place, is situated in the State of New York, a short distance from the western boundary-line of Massachusetts. This place has become a great resort for visitors from all directions; some to enjoy the romantic scenery of this region, and others the beneficial influence of its waters. The spring is 1½ miles from the village; the temperature is 72° Fahrenheit, which being nearly summer heat, renders it delightful for bathing. The water is tasteless, pure as crystal, and is deemed beneficial in internal obstructions, salt rheum, and cutaneous affections generally.

These Springs may be reached from New York by the New York and New Haven and Housatonic railroads, to Pittsfield, Mass., and thence by *stage*, seven miles. Time through, about nine hours. Distance, 183 miles. Fare, $2 50.

Another route is by the Hudson river, or railroad, to *Hudson*, 116 miles; thence by the Hudson and Berkshire R. R. to *Edwards' Depot*, 28 miles; and thence, by *stage*, to the Springs, 8 miles. Time through, about 10 hours. Fare, $2 50.

From Albany and the West, they may be reached by taking the Albany and West Stockbridge R. R., to Canaan Corners, 33 miles; and thence proceed by stage to the Springs, 7 miles. Fare, $1 62.

From Boston and the East, visitors should take the Western Railroad to Pittsfield, and thence proceed by *stage* to the Springs.

TRENTON FALLS are situated in the State of New York, on West Canada Creek, 15 miles in a N. E. direction from Utica. They can be reached by conveyances from Rockton, (formerly Little Falls,) Herkimer, and Utica; they are, however, nearer to the latter place, and by leaving early in the morning, the visitor, if he intends devoting but one day to them, will have an opportunity of returning in the evening. The journey from Utica is over a fine plank road. These falls, six in number, extend a distance of two miles, having an aggregate fall of 312 feet. Their appearance varies with the state of the water. The scene, which at all times possesses great interest, is, in seasons of freshet, extremely wild and exciting.

From the hotel which is near the falls, the visitor should descend a pathway leading to a long staircase, down the steep bank of the West Canada Creek, which has worn a frightful chasm through a rocky range, in some places 150 feet deep; thence proceed up the stream, and follow the winding footway to Sherman's Fall, which has a descent of 35 feet, with its greatest fall towards the west; from the foot of which the stream pours along with less rapidity, descending to *Conrad's Falls*, which have a pitch of about 20 feet.

The *High Falls* have a perpendicular pitch of 109 feet. and are divided by rifts in the rock, into three different and splendid cascades, forming,

with the chasm, the high banks covered with foliage, and the rocky cliffs, a scene of the wildest grandeur.

The *Mill-Dam Fall*, from the regularity and smoothness of the rock, has a uniform pitch of about 16 feet, with a width of 175 feet. The waters of the *Upper Falls*, which have an abrupt descent of about 20 feet, are received into a capacious basin, and pass off through a wild ravine along the rocky bed of the river, for about a mile, towards the *Cascades*, which have a fall of about 18 feet.

THE GENESEE FALLS are situated in the vicinity of Rochester, N. Y., and on the Genesee River. They have *three* perpendicular pitches, and *two* rapids; the first great cataract plunges perpendicularly 96 feet. The ledge here recedes up the river from the centre to the sides, breaking the water into three distinct sheets. It was from *Table Rock*, in the centre of these falls, that the renowned Sam Patch made his last and fatal leap. The river below the first cataract is broad and deep, with occasional rapids to the *second* fall, where it again descends perpendicularly 20 feet. It then pursues a rapid course to the *third* and last fall, over which it pours its flood down a perpendicular descent of 105 feet. The beautiful and picturesque cemetery of *Mt. Hope* is situated in the vicinity.

THE AVON SPRINGS are situated in the State of New York, and in the Genesee Valley, 19 miles from Rochester. The waters have obtained celebrity from their efficacy in curing various disorders; this, added to the rural attractions of the spot, induces thousands to visit them. *Stages* leave Rochester daily, during the season; the *packet-boats* which run on the Genesee Valley Canal, also land passengers within two miles of the Springs, from which point *carriages* convey them to their destination.

For description of Sharon Springs, see page 62.

THE BRANDYWINE SPRINGS, a celebrated watering-place, are situated in the State of Delaware, a few miles from Wilmington, from which place they are readily reached by *stage*.

SCHOOLEY'S MOUNTAIN, N. J., 18 miles from Morristown, and 16 miles from *White House*, is a celebrated summer resort, owing to its elevated situation, its pure and bracing air, and its *mineral springs*, the waters of which are used with great advantage for chronic diseases and general debility. This place is reached from New York, either via the Morris and Essex R. R. to Morristown, thence by stage; or, via the New Jersey Central R. R. to White House, thence by stage, to the mountain. Passengers from Philadelphia, leave the cars at New Brunswick, and thence proceed by stage, 6½ miles, to Bound Brook, connecting there with the New Jersey Central R. R. for White House, thence by stage to the mountain.

THE DELAWARE WATER-GAP is about 8 miles north from Belvidere, N. J. The scenery is of the most magnificent description. The Delaware appears, seen from a short distance, to be arrested in its course by the mountain on either side, between which it flows in a contracted channel, presenting a smooth and lake-like appearance.

THE LEHIGH WATER-GAP is 25 miles from Easton, Pa., and 6 S. E. from Mauch Chunk, Pa. Here, also, the scenery is of the highest order.

Both this and the preceding are natural curiosities worthy the attention of the tourist.

NAHANT is a delightful watering-place, situated 12 miles from Boston, by water, and 14 by land. The jaunt, by steamboat, through the harbour, is very delightful, enabling the visitor to see some of the many beautiful islands with which it is studded.

PHILLIP'S BEACH, in the town of Lynn, a short distance N. E. of Nahant, is a noted resort, particularly for the Bostonians.

CHELSEA BEACH, 5 miles from Boston, is about 3 miles in length, and is another fine place of resort in warm weather.

CAPE ANN.—*Gloucester* is situated on Cape Ann, the eastern extremity of Massachusetts, and on the north shore of Massachusetts Bay. The town is on the southern side of the Cape, and has one of the finest harbours on the whole Atlantic coast. During the summer season Gloucester is a great resort for those who are desirous of enjoying the sea-breeze of the Atlantic, and of bathing in its transparent waters. By some persons this place is thought to equal Newport, the situation of the two being somewhat similar.

This charming resort is readily reached from Boston by the *Eastern* and *Gloucester Branch* railroads, in about *one hour and a half;* the distance is 30 miles, and the fare less than a dollar.

NEWPORT is a celebrated watering-place in the State of Rhode Island, situated on an island of the same name, in Narragansett Bay, about five miles from the ocean. The town is located on ground gradually rising from the water, with a beautiful site facing the harbour, in a south-easterly direction. It is noted for the salubrity of its climate, its cooling ocean breezes, and its fine views, which have made it a favourite resort during the summer season.

Newport is about 30 miles south-east from Providence, 71 from Boston, and 165 from New York city. It may be conveniently reached from either place, at a reasonable rate. During the season steamboats leave Providence early in the morning, making the excursion to Newport, and returning in the evening, thereby affording ample time for bathing. The usual fare is 50 cents.

LONG BRANCH, a popular resort for sea-shore recreation, is situated on the eastern shore of New Jersey, 32 miles from New York. It is reached from the latter place by *steamboat.* Visitors from Philadelphia and the South, take the cars of the Camden and Amboy R. R. to *Hightstown*, and thence proceed to the sea-shore by stage.

ROCKAWAY BEACH is a celebrated and fashionable watering-place, on Long Island, fronting on the Atlantic Ocean. From New York, visitors take the cars to *Jamaica*, 12 miles, and thence proceed by *stage* to the beach, 8 miles.

CAPE MAY, an attractive watering-place, much frequented by Philadelphians, is situated at the mouth of Delaware Bay, on the New Jersey side. The accommodations here are of the first order, and the beach is unsurpassed as a bathing-place. During the season steamboats run there, both from Philadelphia and New York. *Cape Henlopen* is

situated opposite Cape May, and may be reached from Philadelphia, Baltimore, Wilmington, and other places, by steamboat.

BROWN'S MILLS, now a place of considerable resort for company from Philadelphia, is situated in New Jersey, on a branch of Rancocas River, 12 miles east from Mount Holly. It is readily reached from Philadelphia, by either railroad or steamboat, to Burlington, thence by cars to Mount Holly, and thence to the "Mills" by *stage*.

BEDFORD SPRINGS.—This celebrated watering-place is situated in Bedford county, State of Pennsylvania. It lies in a narrow and romantic valley, having Constitution Hill on the east, and Federal Hill on the west. The principal spring issues from a limestone rock, the water of which is clear and sparkling. Its flavour is peculiar, somewhat resembling a weak solution of Epsom salts, impregnated with carbonic acid, and is inodorous. A little farther south is another spring, of the same general qualities, issuing from the same rock. On the west side of the creek is a *sulphur spring*, the water of which has a peculiarly unpleasant hepatic taste, and exhales a strong odour of sulphuretted hydrogen. One mile and a half north-east from Bedford is a chalybeate spring, surrounded with bog-iron ore.

These springs are situated about midway between *Hollidaysburg*, Pa., on the Pennsylvania Central Railroad, and *Cumberland*, Md., on the Baltimore and Ohio Railroad. From either of these places the Springs are readily reached by stage conveyance of about 30 miles. By consulting the Map, its location will be better understood.

CARLISLE SPRINGS.—These sulphur springs are situated in Cumberland county, Pennsylvania, about *four* miles north of Carlisle, on a branch of the Conodoguinet Creek, in a retired and healthy spot, surrounded by the fine scenery of the Blue Mountains. The grounds around the Springs are ornamented in good taste, whilst the accommodations for visitors are ample. The water bubbles up from the slate formation, from which it derives its strong impregnation of sulphur.

About one mile and a half from the town of Carlisle is a remarkable limestone cave, the entrance to which is on the banks of the Conodoguinet Creek, in the form of a semicircular archway, about seven feet in height. It contains a number of curious passages and antechambers, and several pools of water, supposed by some to be springs.

The *Springs* may be reached by *stage* from Carlisle, that place being situated on the Cumberland Valley R. R., 22 miles from Harrisburg, Pa., and 129 miles from Philadelphia. Its location will become familiar by consulting the map.

VIRGINIA SPRINGS.—These Springs rank among the most celebrated watering-places of America, and are visited every season by vast numbers, either in search of recreation and amusement, or to enjoy the benefit of their waters; in fact, they are to the South what the renowned Saratoga is to the North.

These waters have been found very beneficial in the cure of dyspepsia, jaundice, rheumatism, liver complaint, gout, diseases of the skin, and many other complaints. They contain sulphate of soda, carbonate of magnesia, chloride of sodium, per-oxide of iron, organic matter, iodines, sulphate of magnesia, phosphate of lime, and precipitated sulphur. The gaseous contents are, carbonic acid, sulphuretted hydrogen, oxygen, and nitrogen.

These Springs are situated in an elevated and beautifully picturesque valley, hemmed in by mountains on every side. They are in the midst of the celebrated spring region, having the *Hot* and *Warm Springs* on the north, the former 35, and the latter 40 miles distant; the *Sweet*, 17 miles to the east; the *Salt* and *Red* on the south-west, the former 24, the latter 41 miles distant; and the *Blue Sulphur*, 22 miles to the west.

Amongst the most celebrated of these are the *White Sulphur Springs*, which are situated on a branch of the Greenbrier River, in the county of Greenbrier, and in the valley of Howard's Creek.

The *Warm Springs*, in the county of Bath, are among the oldest of the watering-places. The water, which has a temperature of 98° Fahrenheit, is very transparent. The accommodations for bathing are excellent.

The *Hot Springs* are situated in a valley deeply embosomed among mountain peaks, in the county of Bath, five miles south from the Warm Springs. Bathing houses have been erected, and every accommodation provided for both male and female patients. The baths are six in number, each being supplied with water from a separate spring. They range in temperature from 98° to 106°.

The *Sweet Springs* are situated in a wide and beautiful valley, in the eastern extremity of Monroe county, and are justly celebrated for the tonic powers of their waters, used either internally or externally. Their temperature is 73° Fahrenheit.

The *Salt Sulphur Springs*, situated in the county of Monroe, are encircled by mountains on every side. These springs enjoy a high reputation, not only for the virtues of their waters, but also for the excellent accommodations with which they are furnished. They are, in consequence, much visited by invalids. Their temperature varies from 49° to 56°.

The *Red Sulphur Springs* are in the southern part of Monroe county, 17 miles from the Salt, and 32 from the Sweet Springs. The water is clear and cool, its temperature being 54°.

The *Blue Sulphur Spring* is situated in a narrow, but beautifully picturesque valley, on Muddy Creek, a small tributary of Greenbriar river. It has comfortable accommodations for about 300 persons. The medicinal virtues of its waters draw thither, during the season, a large number of visitors.

Routes to the Virginia Springs.—From Baltimore, they may be reached by several routes. One of the most pleasant and expeditious is by railroad, to Harper's Ferry and Winchester, Va.; thence by *stage* to *Staunton*. From this place we may proceed directly across the North and Warm Spring Mountains, to the *Warm* and *Hot Springs;* or may proceed to the *Natural Bridge*, via Lexington, and thence to the *White Sulphur*, via Dibrell's Springs. See Route, page 145.

From Baltimore, also, we may go by way of Washington, Fredericksburg, and the Virginia Central R. R., to Gordonsville; thence by *stage*, via Staunton, to the Springs. For routes from Washington to the Springs, see page 147.

Instead of going via Gordonsville, we may proceed to *Richmond*, Va., or starting from Baltimore, may reach the latter place by *steamboat;* thence by *canal* to Lynchburg, and thence by *stage*, either by the road leading past the Natural Bridge, or by the way of Liberty, Fincastle, and the Sweet Springs, arriving at the White Sulphur. See Route from Richmond to the Springs, page 148.

To reach the Springs from the West and South-west, passengers

should leave the *steamboat* at *Guyandotte*, on the Ohio River; thence, by *stage*, to the Springs. For Route from Guyandotte to the White Sulphur Springs, see page 149.

Travellers from the South will reach *Richmond*, Va., by railroad, from Wilmington, N. C., at which place they will take conveyance as before described.

THE NATURAL BRIDGE of Virginia is one of the greatest natural curiosities in the country, if not in the world. It consists of a stupendous arch of limestone rock, over an unimportant and small stream, called Cedar Creek. The view from the top is awfully grand; yet one should go to the brow of the precipice that descends to the level of the creek, where the view, equally sublime, will be found far more interesting, being divested, in a great measure, of the awe which is sensibly felt on looking from the bridge down into the dreadful gulf. The height from the stream to the top of the bridge is 215 feet, its average width, 80 feet, and its extreme length at the top, 95 feet. The chasm over which it passes is 50 feet wide at bottom, and 90 feet at top. The bridge is covered with earth to the depth of about five feet, which is made firm by trees and shrubbery, whilst its sides are protected by rocks, forming a natural wall. It is 156 miles west from Richmond, 2 miles north of James River, 41 from Lynchburg, and 63 miles south-east from the White Sulphur Springs.

MOUNT VERNON and the *Tomb of Washington* are situated in Virginia, on the west bank of the Potomac, 15 miles south from the city of Washington, and 8 miles from Alexandria. Conveyances may be obtained, at Washington, at the rate of $6 00 for the trip, with the privilege of remaining at Mount Vernon for an hour. The best plan, however, is to take the ferry-boat from Washington to Alexandria, which will cost 12½ cents, and occupy about half-an-hour. At the latter place a conveyance may be hired for the trip, which will cost from $3 to $4. This is the least expensive route, and besides adds variety to the travel. Occasionally during the summer season steamboats ply between Alexandria and Washington and Mount Vernon—fare, $1 00. This route is certainly preferable to all others. Visitors, although permitted to walk over the grounds, are not admitted to the mansion, unless they have letters to the proprietor.

At Alexandria may be seen *Braddock's house*, built in the year 1752. The interior, with the exception of "Braddock's Room," has been remodelled: the old wainscoting, in the room referred to, is preserved with religious care, and is very curious.

THE WARM SPRINGS, N. C., are situated on the east bank of the French Broad River, 282 miles west from Raleigh, the capital of the State. These Springs, together with the road leading down the above river, are worthy the attention and admiration of the tourist. It is a fine macadamized road, and follows the course of the river along its bank; and as the river is shut in on both sides by mountains, in many places rounding high, bluff points, the road has its foundation on the river, resembling piers. It is a noble monument of the conquest of art over the obstacles of nature. The scenery is very wild, rugged, and picturesque. The Warm Springs afford a very delightful watering-place, and are much resorted to by invalids, and others from this and the neighbouring States. A few miles below the Warm Springs are the famous *Paint Rocks* and *Chimneys*. The climate of this section is one

of the most salubrious in the world; its crystal water, pure air, and exercise among the mountains, cannot fail of being beneficial to those who pay it a visit.

MAMMOTH CAVE, KY.—This remarkable cave is situated in Edmondson county, Ky., about 130 miles from Frankfort, midway between Louisville and Nashville, and near Green River. It is said to contain 226 avenues, 47 domes, numerous rivers, 8 cataracts, and 23 pits, some of which possess a great degree of grandeur. The atmosphere of the cave is serviceable to those afflicted with pulmonary complaints, and in some cases has proved beneficial. Visitors wishing to explore the cave are furnished with guides, and every necessary direction given.

The cave is entered by descending several steps; all is now darkness and gloom; a light is obtained, and following our guide we reach the *rotunda,* which covers about half an acre of ground, and is not less than 30 feet high. The *church,* which is a spacious hall, derives its name from a ledge of rocks resembling a pulpit; it is three-quarters of a mile from the mouth of the cave. The next place is the *Gothic Avenue*, which is reached by ascending a flight of steps about 20 feet. We next pass in succession the *Haunted Chamber*, *Gothic Chapel*, *Devil's Arm-chair*, *and Ammett's Dome*. *Goram's Dome* is 620 feet from the surface, and is the deepest part of the cave. The *Bottomless Pit* is a fearful looking place, two miles from the entrance.

A hole apparently sunk in at one side of the cave, marks the first appearance of the river: it is termed the *Dead Sea*. The *River Styx*, a short distance beyond, crosses the cave, the ground over it forming what is termed the *Natural Bridge*. *Martha's Vineyard* is an apartment so named from its being covered with a beautiful lime formation resembling grapes, which, when lighted, reflects great beauty. The visitor passes through and by ravines, halls, &c., of great beauty—Cleveland, Cabinet, Spear Hall, Snowball Ravine, &c. &c.; the latter is one of the most beautiful places imaginable: the whole is covered with sulphate of lime, resembling flowering balls.

After leaving the lime formations the visitor approaches the *Rocky Mountains*. This is an apartment where the rocks have fallen from the top of the cave, forming a very large hill or mountain of rocks, some 100 feet or more high, which is very steep and rough. To stand on the top and look down into the hollow beneath, is the most solemn and dismal sight ever beheld. Its name, *Dismal Hollow*, is very appropriate. After leaving this, we approach the end of the cave, to arrive at which, we go down a steep and easy descent, to what is called *Serena's Harbor*, which is filled with large stalactites.

Routes to the Mammoth Cave.—It can be readily reached from Cincinnati, O., Louisville, Frankfort, and Lexington, Ky., in the north, and from Nashville, Tenn., in the south. The accommodations will be found, during the travelling season, to be very good from either place, and fares moderate. Steamboats, also, during seasons of high water, ascend Green River, a distance of about 165 miles from the Ohio, landing in the vicinity of the cave. It is about 130 miles from Lexington, 98 from the Harrodsburg Springs, about 90 from Louisville, and the same distance from Nashville, Tenn.

THE FALLS OF ST. ANTHONY are situated on the Mississippi River, some 300 miles from its source, about 800 miles above St. Louis, and 2,097, by the course of the river, from the Gulf of Mexico. The fall is only about 17 feet, yet it is considered more beautiful than Niagara,

although not so terrific or sublime. The rapids above and below the falls add much to the beauty of the scene, and give to the spot a charm of no ordinary character.

THE DRENNON SPRINGS are situated in Henry county, Ky., 1½ miles from the Kentucky River, and 20 miles from its mouth. At these Springs may be found every variety of sulphur water and chalybeate. They are reached from Cincinnati, O., Frankfort, and Louisville, Ky., by steamboats, which run to and from the Springs daily, during the season.

THE HOT SPRINGS, ARKANSAS, are situated a few miles north of the Washita River, and 53 miles from Little Rock, the capital of the State. They derive importance from the great virtue of the medicinal waters in the vicinity, and are now becoming every season more popular. The waters have been found efficacious in chronic diseases, such as scrofula, rheumatism, &c. *Stages* run between Little Rock and the Springs. Fare, $5 00.

POPULATION OF THE UNITED STATES, &c.

The following valuable table, from the *National Intelligencer*, we insert here in the hope that it may be found useful.

The population of the United States, for 1850, the ratio of representation and number of representatives to each State which that amount of population will give, the fractions left to each State, &c., are given as near as can be ascertained at present, from the certificates of the Marshals. The entire *representative population* is about 21,710,000. The ratio of representation will be about 93,170. As the law of 22d May, 1850, determines the number of representatives at 233, and as but 220 of these are provided for in the following table, without taking them from fractions, it will be necessary to select from the States thirteen having the largest fractions, to each of which are to be assigned a representative, to make up the entire number. The States entitled to representatives for such fractions will most probably be New Hampshire, Massachusetts, Rhode Island, Connecticut, Indiana, Maryland, North Carolina, Alabama, Louisiana, Texas, Arkansas, Missouri, and Kentucky—13.

The States which gain, irrespective of the fraction, will be Pennsylvania, 1; Illinois, 2; Mississippi, 1; Michigan, 1; Missouri, 1—6.

The States which gain, in all, are as follows, viz.: Arkansas, 1; Indiana, 1; Illinois, 2; Massachusetts, 1; Mississippi, 1; Michigan, 1; Missouri, 2; Pennsylvania, 1—10.

The following States lose, viz.: Maine, 1; New Hampshire, 1; New York, 1; North Carolina, 2; South Carolina, 2; Vermont, 1; Virginia, 2.

The free States gain six members and lose four. The slave States gain four and lose six.

SAILING OF STEAMSHIPS.

CUNARD LINE.—The British and North American Royal Mail Steamships sail between NEW YORK and LIVERPOOL *direct*, and also between BOSTON and LIVERPOOL; the latter ships, only, stopping at HALIFAX, to land and receive mails and passengers.

These vessels sail regularly every *Wednesday*, from AMERICA to Liverpool; and from LIVERPOOL to America, every *Saturday*. From New York and Boston, they leave on alternate Wednesdays.

Price of passage, from New York or Boston, to Liverpool, in *first cabin*, $120; *second cabin*, $70. Between Boston and Halifax, $20.

COLLINS' LINE.—The New York and Liverpool United States' Mail Steamships, built expressly for government service, and in the most durable and elegant manner, sail regularly every *Saturday*, from NEW YORK to Liverpool; and on every *Wednesday*, from LIVERPOOL to New York.

The price of passage by this superior line, from New York to Liverpool, is $130; and from Liverpool to New York, £35.

NEW YORK AND HAVRE STEAM NAVIGATION COMPANY.—The vessels composing this line will leave NEW YORK for Havre, during 1851, once every four weeks, on *Saturday*, according to the following dates:—*April* 5th, *May* 3d, *May* 31st, *June* 28th, *July* 26th, *August* 23d, *September* 20th, *October* 18th, *November* 15th, and *December* 13th.

From HAVRE for New York, on *Wednesdays*, as follows:—*April* 9th, *May* 7th, *June* 4th, *July* 2d, *July* 30th, *August* 27th, *September* 24th, *October* 22d, *November* 19th, and *December* 17th.

Price of passage from New York to Southampton, or Havre, $125; from Havre or Southampton to New York, 850 francs.

OCEAN STEAM NAVIGATION COMPANY.—United States' Mail Line of Steamships, sailing between New York and Bremerhaven,* stopping each way at Southampton, England.

The ships of this company will sail from NEW YORK on *Saturdays*, BREMEN on *Fridays*, and SOUTHAMPTON on *Wednesdays*, of each month.

From NEW YORK. *April* 19th, *May* 17th, *June* 14th, *July* 12th. *August* 9th, *September* 6th, *October* 4th, *November* 1st, *Nov.* 29th, *December* 21st.

From BREMEN, *April* 18th, *May* 16th, *June* 13th, *July* 11th, *August* 8th, *September* 5th, *October* 3d, *October* 31st, *November* 28th.

UNITED STATES' MAIL STEAMSHIP COMPANY.—The ships of this Company will leave New York on the 11th and 26th of each month, for CHARLESTON, SAVANNAH, HAVANA, NEW ORLEANS, and CHAGRES. They are the *Falcon*, *Ohio*, and *Georgia*.

EMPIRE CITY LINE.—The steamships of this line leave NEW YORK for CHAGRES, *direct*, on the 13th of each month, connecting at PANAMA with the Pacific Line, running to SAN FRANCISCO. They are the *Crescent City* and the *Empire City*.

Passengers going direct should purchase *through* tickets, thereby avoiding unnecessary detention.

The steamers running on the Pacific are the *California*, *Oregon*, *Panama*, *Carolina*, *Tennessee*, *Northerner*, and *Union*. These steamships form a semi-monthly line between Panama and San Francisco.

Passage can be secured at the following rates:

FROM NEW YORK TO CHAGRES.

PHILADELPHIA AND LIVERPOOL LINE OF STEAMSHIPS.—The steamships forming this line will be the *City of Glasgow*, the *City of Philadelphia*, and the *Pennsylvania*. The former of these is the only one, at present, running; the others, now building, will be placed upon the line as early as practicable.

* Bremerhaven is situated at the mouth of the Weser, and about 40 miles from Bremen, of which it is the seaport.

The steam-propeller *City of Glasgow* sails between Philadelphia and Liverpool, leaving each city *once* a month.

Price of passage from PHILADELPHIA to Liverpool, in first cabin, $100; second cabin, $60. From LIVERPOOL to Philadelphia, in first cabin, 22 guineas; second cabin, 13 guineas.

PHILADELPHIA AND CHARLESTON LINE OF STEAMSHIPS.—The steamships *Osprey* and *Albatross* run regularly between Philadelphia and Charleston; one of them leaving each place every Saturday. Price of passage, in first cabin, $20; steerage, $10.

From Charleston, passengers may proceed; by steamship, direct to Havana. Fare through from Philadelphia, $60.

Passengers for New Orleans can take the land route at Charleston, and proceed directly on.

PACKET SHIPS SAILING FROM NEW YORK.

NEW YORK AND LIVERPOOL PACKETS.—These vessels (without their superior in the world) leave each port on the 1st, 6th, 11th, 16th, 21st, and 26th, of each month. Price of cabin passage to Liverpool, from $80 to $100; steerage, $15. From Liverpool to New York, £25.

NEW YORK AND LONDON PACKETS.—These sail from each port, on the 1st, 8th, 16th, and 24th of each month. Price of passage from New York to London, from $80 to $100; steerage, $15. From London to New York, £25.

HAVRE PACKETS.—These ships leave each port on the 1st, 8th, 16th, and 24th of each month. Price of passage from New York to Havre, $100.

Packet Ships of the first class, also sail between New York, New Orleans, Charleston, Mobile, and other ports.

PHILADELPHIA AND LIVERPOOL LINE OF PACKET SHIPS.

There are several lines of Packet Ships sailing between Philadelphia and Liverpool. From the former port they sail on the 1st, 12th, 15th, and 25th of each month; and from the latter port, on the 1st, 12th, 18th, and 26th of each month.

Price of cabin passage from Philadelphia, $80; steerage, $15.

CONSISTING OF A LARGE ASSORTMENT OF

BIBLES, PRAYER-BOOKS, COMMENTARIES, STANDARD POETS,

MEDICAL, THEOLOGICAL, AND MISCELLANEOUS WORKS, ETC.,

PARTICULARLY SUITABLE FOR

PUBLIC AND PRIVATE LIBRARIES;

For Sale by Booksellers and Country Merchants generally throughout the United States.

THE BEST AND MOST COMPLETE FAMILY COMMENTARY.

The Comprehensive Commentary on the Holy Bible;

CONTAINING

THE TEXT ACCORDING TO THE AUTHORIZED VERSION,

SCOTT'S MARGINAL REFERENCES; MATTHEW HENRY'S COMMENTARY, CONDENSED, BUT CONTAINING EVERY USEFUL THOUGHT; THE PRACTICAL OBSERVATIONS OF

REV. THOMAS SCOTT, D.D.;

WITH EXTENSIVE

EXPLANATORY, CRITICAL, AND PHILOLOGICAL NOTES,

Selected from Scott, Doddridge, Gill, Adam Clarke, Patrick, Poole, Lowth, Burder, Harmer, Calmet, Rosenmueller, Bloomfield, Stuart, Bush, Dwight, and many other writers on the Scriptures.

The whole designed to be a digest and combination of the advantages of the best Bible Commentaries, and embracing nearly all that is valuable in

HENRY, SCOTT, AND DODDRIGE.

EDITED BY REV. WILLIAM JENKS, D.D.,

PASTOR OF GREEN STREET CHURCH, BOSTON.

Embellished with five portraits, and other elegant engravings, from steel plates; with several maps and many wood-cuts, illustrative of Scripture Manners, Customs, Antiquities, &c. In 6 vols. super-royal 8vo.

Including Supplement, bound in cloth, sheep, calf, &c., varying in

Price from $10 to $15.

The whole forming the most valuable as well as the cheapest Commentary in the world.

The Companion to the Bible.

In one super-royal volume.

DESIGNED TO ACCOMPANY

THE FAMILY BIBLE;

OR,

HENRY'S, SCOTT'S, CLARKE'S, GILL'S, OR OTHER COMMENTARIES.

ILLUSTRATIONS OF THE HOLY SCRIPTURES,

In one super-royal volume.

DERIVED PRINCIPALLY FROM THE MANNERS, CUSTOMS, ANTIQUITIES TRADITIONS, AND FORMS OF SPEECH, RITES, CLIMATE, WORKS OF ART, AND LITERATURE OF THE EASTERN NATIONS:

EMBODYING ALL THAT IS VALUABLE IN THE WORKS OF

ROBERTS, HARMER, BURDER, PAXTON, CHANDLER,

And the most celebrated Oriental travellers. Embracing also the subject of the Fulfilment of Prophecy, as exhibited by Keith and others; with descriptions of the present state of countries and places mentioned in the Sacred Writings.

ILLUSTRATED BY NUMEROUS LANDSCAPE ENGRAVINGS,

FROM SKETCHES TAKEN ON THE SPOT.

EDITED BY REV. GEORGE BUSH,

Prof. of Hebrew and Oriental Literature in the N. Y. City University.

THE ILLUSTRATED CONCORDANCE,

In one volume, royal 8vo.

A new, full, and complete Concordance; illustrated with monumental, traditional, and oriental engravings, founded on Butterworth's, with Cruden's definitions; forming, it is believed, on many accounts, a more valuable work than either Butterworth, Cruden, or any other similar book in the language.

LIPPINCOTT'S STANDARD EDITIONS OF

THE BOOK OF COMMON PRAYER;

IN SIX DIFFERENT SIZES,

ILLUSTRATED WITH A NUMBER OF STEEL PLATES AND ILLUMINATIONS.

COMPREHENDING THE MOST VARIED AND SPLENDID ASSORTMENT IN THE UNITED STATES.

LIPPINCOTT'S EDITIONS OF
THE HOLY BIBLE,

SIX DIFFERENT SIZES.

Printed in the best manner, with beautiful type, on the finest sized paper, and bound in the most splendid and substantial styles. Warranted to be correct, and equal to the best English editions, at a much lower price. To be had with or without plates; the publishers having supplied themselves with over fifty steel engravings, by the first artists.

Baxter's Comprehensive Bible,

Royal quarto, containing the various readings and marginal notes; disquisitions on the genuineness, authenticity, and inspiration of the Holy Scriptures; introductory and concluding remarks to each book; philological and explanatory notes; tables of contents, arranged in historical order; a chronological index, and various other matter; forming a suitable book for the study of clergymen, Sabbath-school teachers and students.

The Oxford Quarto Bible,

Without note or comment, universally admitted to be the most beautiful family Bible extant.

Crown Octavo Bible,

Printed with large clear type, making a most convenient Bible for family use.

Polyglot Bible.

The Sunday-School Teacher's Polyglot Bible, with Maps, &c.

The Oxford 18mo. Bible.

This is an extremely handsome and convenient Pew Bible.

Agate 32mo. Bible,
